

## BRIEF INFORMATION

### Licence plate bracket with integrated LED licence plate lamp 329 280

- › Quick and easy mounting due to predefined positioning of the lamp in relation to the licence plate
- › Patented licence plate mounting, suitable for EU number plates with heights of 110 mm and 120 mm

## PRODUCT FEATURES

Thanks to the integrated design of the LED licence plate lamp and the licence plate bracket, both elements are ideally matched to each other and do not have to be mounted separately. This saves time and costs. The product can be used for EU licence plates with heights of 110 mm and 120 mm.

The integrated bracket clips with patented latching mechanism make mounting the licence plate quick and easy.

The waterproof electrical contact with AMP SUPERSEAL connectors makes the product particularly robust and durable. When cleaning the vehicle with a high-pressure jet cleaner, the licence plate bracket and the integrated LED licence plate lamp withstand the water without any problems.

The product is also ADR / GGVSEB certified and therefore also suitable for vehicles used for transporting hazardous goods.

# TECHNICAL DETAILS

Technical data	
Operating voltage range	Single-voltage (18–32 V)
Rated voltage	24 V
Current consumption	Max. 0.36 A (28 V)
Power consumption	Max. 2 W
Light function	Licence plate light
Light source	4 LEDs
Material	PMMA / PC / PP
Temperature range	-40 °C to +60 °C
Protection class	IP 5KX, IP X9K
Approved	ECE-R10, ECE-R148, ADR / GGVSEB
Compliant	CISPR 25 Class 3
Protection	Polarity reversal protection, overvoltage protection
Specification	FORVIA HELLA Standard HN67101 Class 5.1 24 V trailer
Mounting	Screw fastening (screws not included in scope of delivery)
Connection	AMP SUPERSEAL 2-pin, 1,500 mm cable
