The new mega macs 42 >>>

Communicates with all car makes, translates  
**INTO 7 LANGUAGES** for you.

### IT'S CERTAINLY FAST

Earning good money in the workshop means having the right equipment to hand at the right time. You need to identify vehicles, find faults, gather data, get parts and carry out repairs. Even when time is at a minimum.

The new mega macs 42 is a nifty portable diagnostic system specially designed by Hella Gutmann Solutions to keep things running smoothly in the workshop. With only 9 easy-to-use buttons. No need for long training sessions. No snazzy functions you'll never need. **Not only is the mega macs 42 light and easy to handle, this ingenious tester is ideal as a starter system, or if a second tool is needed, especially if money matters.** Why invest huge sums of money in diagnostic technology when you can rent the mega macs 42 for a moderate monthly fee and benefit

from a comprehensive package of services: the powerful diagnostic handset itself plus unlimited access to all key vehicle data. Even better: direct support from specialist mechanics at the Hella Gutmann Solutions call centre is just a phone call away\*. Overall the name of the game is flexibility. You're not tied to lengthy contracts; simply hand us back your mega macs 42 at the end of the minimum contract period\*\* – not that you'll want to.

### IT OFFERS MORE THAN MEETS THE EYE

Hella Gutmann Solutions is a new joint venture between Gutmann Messtechnik and Hella. It's only early days yet, but with innovations like the new mega macs 42 this partnership is already bearing fruit – to the benefit of your workshop.

### LEAVING THE BEST TIL LAST

In 2009 your mega macs 42 will become even more useful. The handset will be linked to Hella's existing DDS 100 data program. This will turn this multi-make tester into a comprehensive data archive.

The benefit to you: less time spent looking up vehicle IDs twice or trying to track down components. At the touch of the button you'll have access to all key vehicle data:

+	Cam belt and timing chain data
+	Instructions on resetting service intervals
+	Interactive circuit diagrams outlining all key steps
+	Comprehensive repair instructions, including repair times
+	Available in 14 countries and 7 different languages
+	High vehicle coverage

Fantastic features, in one licence: mega macs 42	
+	Read error codes, backed up by detailed help menus on repairs
+	Clear graphs and explanations straight from the manufacturers
+	Actuators
+	Coding
+	Basic setting
+	Service interval resets
+	User friendly software
+	All updates included
+	Unlimited access to the huge diagnostic database at Hella Gutmann
+	Free replacement in the unlikely event of a fault
+	Adaptor set for VW/Audi /Seat /Skoda, BMW, Opel, Mercedes and OBD
+	No-quibble cancellation after expiry of minimum 12-month contract
