

***The Rallye 3003 for professionals.***

***Unique design.***

**Rallye 3003**  
Made in Germany

***Ideas today for  
the cars of tomorrow***

## ***Innovative lighting technology. Unique design.***

### ***You can tell professionals by their light.***

**Hella therefore developed the new Rallye 3003 especially for professionals who often drive both on-road and off-road. For top performance with a unique design.**

- Unique housing design
- Silver-coloured Design ring with high-quality screw connection
- With high-boost reflector for an even more homogeneous illumination of the road
- An ideal supplement for standard lighting
- With clear, real-glass lens
- High-quality materials and flexible retaining system for the tough demands of truckers and off-roaders
- The Rallye 3003 is made in German manufacturing facilities certified according to the strict and globally applicable environmental standard ISO 14001.

***An original with the Hella logo***

***Impact-resistant and sturdy housing***

***Available with or without position light***

***High-quality stainless steel hexagon screws***

*actual size*

**The new auxiliary light Rallye 3003.  
Design and perfection down to the smallest detail.**

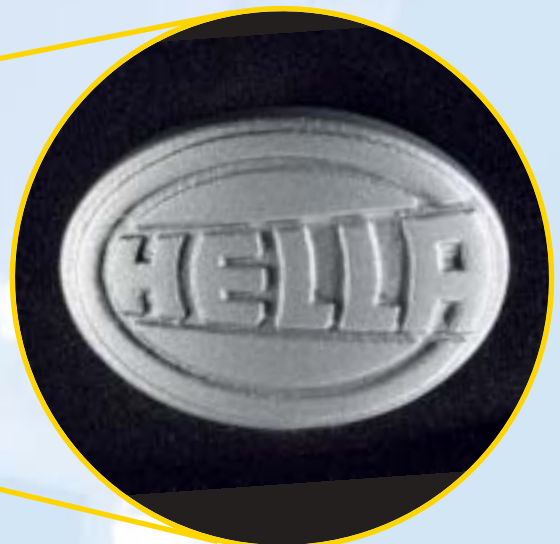

**Silver-coloured Design ring with stainless steel hexagon screws**

**High-quality materials in a unique design**

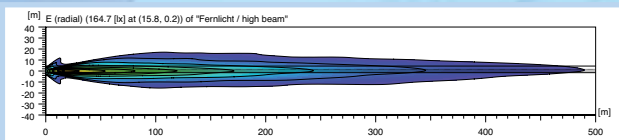

**An original with the Hella logo.  
"Made in Germany"**

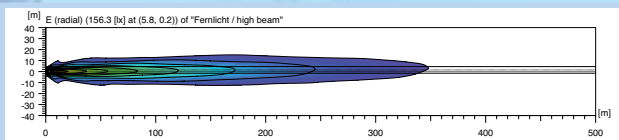

# Better light thanks to high-boost reflector!

- Computer-optimised for ultimate harmonisation of light source and free-form technology
- Reflector metallisation using purest aluminium for maximum efficiency and long-term stability

Rallye 3003 (ref. 37.5) with high-boost reflector

Comparable auxiliary light without high-boost reflector

## The result:

Significantly better light distribution and greater efficiency of the Hella high-boost reflector

compared with a standard auxiliary light without high-boost reflector

## Professional use of the Rallye 3003.

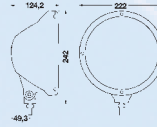

The ideal supplement for improved lighting performance for truckers and off-roaders. The Rallye 3003 ensures optimum visibility and active road safety – whatever the weather and driving situation. Developed by professionals, for professionals.
