

WIPER BLADES FOR TRUCKS

HELLA wiper blades clean the screen on your vehicle thoroughly, reliably and without wearing. Thanks to the graphite-coated rubber lip they glide silently and without shuddering across the glass. HELLA offers two different systems for commercial vehicles: conventional wiper blades and models with an integrated spray nozzle. They remove rain, dirt and snow more efficiently and are particularly durable.

1 Conventional wiper blades
2 Non-articulated wiper blades

SEE FURTHER WITH HELLA

Long-distance drivers know how important it is to be able to rely on their vehicle. Wiper blades have a very important function and must deliver a top-class performance every time. Good visibility means safety. HELLA wiper blades guarantee the best quality and thanks to EASYCHANGE are fitted in no time at all.

HELLA is one of the largest manufacturers of automotive accessories in the world. The best-known European manufacturers rely on parts and technology from HELLA, a family-run company. Around one-fifth of the workforce work in research and development – to keep you safe on the road.

IS IT TIME FOR A REPLACEMENT? CHECK YOUR WIPER BLADES!

Replace your wiper blades to keep your view clear, even in the next thunderstorm! If visibility is poor in several places on your screen when it rains, you should change your wiper blades.

Visibility hardly impaired:
All ok.

Visibility poor in a few places:
Please replace the wipers.

Visibility very impaired:
Replacement urgently required!

EASYCHANGE: REPLACING YOUR WIPER BLADES IS QUICK AND EASY

Thanks to Easychange, your new wiper blades are in place in just a few steps. Every pack of HELLA wiper blades contains a suitable adapter for your vehicle. Just attach it, click the wiper blade into place, finished. All done in just a few minutes.

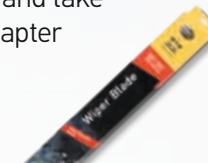

Use our Internet page to help you find the right wiper blades: www.hella.com/easychange. You will find not only the wiper blades for your vehicle, but also the details for the correct adapter. Descriptive videos show you how easy it is to change your wiper blades.

1. Check whether you should change your wiper blades.

2. Our configurator helps you to find the right wiper blade with details of the adapter for your vehicle. Just go to www.hella.com/easychange or scan the QR code.

3. Open the package and take the appropriate adapter

4. Watch the appropriate fitting video.

5. Attach the adapter.

6. Click the wiper blade into place. Ready to go!
