

Slim Line Round Courtesy Lamps

- 9 exciting colours
- 13mm mounting depth
- Ultra low power consumption
- Ultra long service life
- Completely sealed
- Smooth and even light patterns
- Shock and vibration resistant
- 12V DC and 24V DC versions

'Slim Line' round LED courtesy lamps from Hella marine are an attractive, energy efficient, no maintenance solution for a variety of interior and exterior lighting applications.

Designed and manufactured in New Zealand, the new LED lamps are available in 9 exciting colours and feature a mounting depth of only 13mm. Rims are available in polished 316 stainless steel, gold plated stainless steel, black or white plastic. Custom coloured plastic rims and surface mounting spacer rings are also available.

Hella marine LED lamps consume a fraction of the energy of traditional bulb lamps and run very cool due to their low current draw. This provides safer installation into light weight materials where the heat of traditional lamps may cause damage to the surrounding structure.

Advanced Hella lens technology provides a cool and even spread of soft light without glare or eye strain.

Hella marine LED technology has no filaments to break making the lamps extremely shock, impact and vibration resistant and completely maintenance free for an ultra long service life. Each lamp is a completely sealed and waterproof unit, UV and corrosion resistant, perfectly suited for the demanding marine environment. Hella marine LED courtesy lamps represent energy efficient, maintenance free 'fit and forget' technology.

Material Description

UV and impact resistant plastic

Light Source

4 LED's

Installation

Pre-wired with 120mm of cable

Operating Voltage

12V or 24V DC

Degree of Protection

IP 67

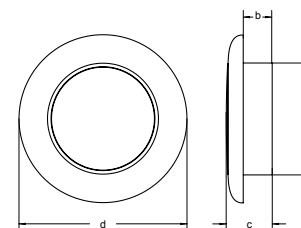

Mounting

Recess or surface mount

3 stainless steel screws included

Power Consumption

0.5W

a = 50.0mm
 b = 13.0mm
 c = 21.0mm
 d = 75.0mm plastic rims
 72.0mm stainless steel rims

Surface Mounting Accessories

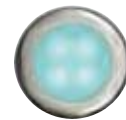

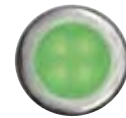

8HG 959 993-102
 2 x Black Spacer Rings

8HG 959 993-112
 2 x White Spacer Rings

Oblong Courtesy Lamps

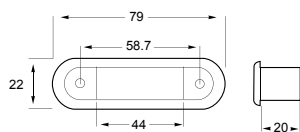

Stylish, compact and power saving Hella marine LED courtesy lamps for interior or exterior installations. Completely sealed and ultra durable, they are ideal for illuminating onboard areas such as steps, stairs, toe kicks, storage areas, companion ways, deck fittings, signs and switches. Multivolt™ versions ensure consistent illumination across a range of input voltages from 10-33 DC, low power consumption and an ultra long service life.

Easy Fit Courtesy Lamps

Ultra compact, power saving and attractive LED lamps for a wide variety of interior and exterior lighting applications.

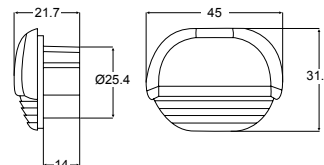

Blue or white light is radiated downward at an angle of 30° making these lamps ideal for illuminating onboard areas such as steps, stairs, toe kicks, storage areas, companion ways, deck fittings, signs and switches. Available with white, chrome and gold plated covers.

Multivolt™ electronics ensure constant light output in 12V or 24V DC systems. Like all Hella marine LED products, Easy Fit lamps are completely sealed, shock and vibration resistant and represent reliable 'fit and forget' technology.

Housing Description	UV and impact resistant acrylic
Light Source	LED
Installation	Pre-wired with 100mm of cable
Operating Voltage	Multivolt™ 12-24V DC
Power Consumption	0.5W
Degree of Protection	Completely sealed
Mounting	Single hole

Foam gasket included

Note - Lamp covers cannot be removed easily once clipped into place.

LED Livewell Lamp

Completely sealed, power saving LED Livewell / Baitwell lamps are designed for installation into live bait tanks with wall thicknesses up to 26mm.

Featuring a durable polycarbonate housing, the lamp provides soft amber light with all the low power and long service life advantages of Hella marine LED technology. Supplied with a plastic nut and rubber gaskets for a watertight installation.

Housing Description	Heavy duty polycarbonate
Light Source	LED
Installation	Pre-wired with 120mm of cable
Operating Voltage	12V DC
Power Consumption	0.5W
Degree of Protection	Completely sealed
Mounting	Single hole

Rubber gaskets included

Amber Light	12V DC
