New DuraLed® High Efficacy LED Task Lamps

High intensity and energy efficient general area lighting

Hella has launched a new range of universal, high intensity and ultra energy efficient DuraLed® LED Lamps offering the industry benchmark highest lumen per watt efficacy for a variety of applications.

LED lighting offers a number of decisive advantages over conventional globe technology that are beneficial for general and work area lighting. The new DuraLed® High Efficacy LED Lamps consume as little as 5 watts of power for minimal strain on both alternator and battery.

In addition to significantly reduced current draw, the highly efficient, low temperature LED circuit design ensure ultra long service life and extremely low degradation of performance.

Equipped with precision optics and the most powerful LEDs available to date, DuraLed® High Efficacy LED Lamps provide exceptional white light output and optimum light distribution for significantly improved work safety and reduced fatigue.

DuraLed® High Efficacy LED Lamps offer superior functional safety and operating reliability. Unlike halogen globes, LEDs are resistant to shock and vibration and last a minimum of 10,000 hours, eliminating the risk of sudden light failure during lamp operation.

The lens is manufactured from ultra-durable Grilamid® nylon, a revolutionary high-performance clear polyamide developed and manufactured in Switzerland, for extreme impact, UV, chemical and stress resistance.

DuraLed® High Efficacy LED Lamps are fully sealed against dust and moisture ingress and available in a range of output intensities and beam patterns: narrow, pencil and spread beam, to suit every individual lighting requirement.

Key Features

- Industry benchmark highest lumen per watt efficacy
- Ultra low power consumption (between 5W and 12W)
- Multivolt™ 9-33V DC
- Grilamid® nylon lens for extreme durability
- Low temperature LED circuit design
- Precision optics for optimum light distribution
- Available in narrow, pencil and spread beam patterns

:: Mega Beam Series

1539LED

Gen II LED FF Work Lamp - Close Range - 9-33V DC

Description The Generation II Mega Beam LED Work Lamp provides vastly improved light output, which has been increased from 180 to 550 lumen. Equipped with 4 high-performance white LEDs (6500°K), high-sheen metallised free-form (FF) reflector and clear glass lens for a consistent close-range illumination.

Voltage Multivolt™ (9-33V DC)

Wattage 15W

Mounting Stainless steel pedestal bracket for upright, side or pendant mounting.

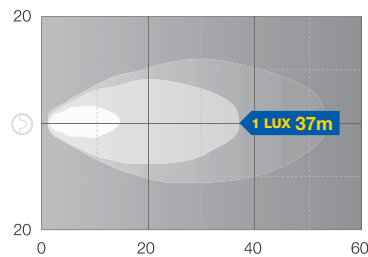

Lead Length 2 metres

Temperature Range -40°C to +50°C

Protection

Reverse Polarity and Transient Voltage Suppressor (TVS). Fully sealed against dust and moisture to IP6K7 and IP6K9K.

Gen II Mega Beam LED 2.0m high at 10°

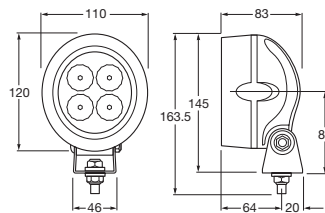

9.1517.08

HM8161

Accessory & Spare Part

HM8161 Clear Protective Cover

9.1517.08 Universal stainless steel pedestal bracket

:: Module 70 Series

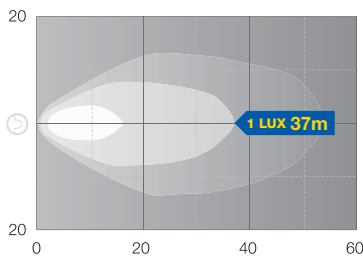

Gen II LED FF Work Lamp - Close Range - 9-33V DC

1547LED

Description	The Generation II Module 70 LED Work Lamp provides vastly improved light output, which has been increased from 180 to 550 lumen. Equipped with 4 high-performance white LEDs (6500°K), high-sheen metallised free-form (FF) reflector and clear glass lens for a consistent close-range illumination.
Voltage	Multivolt™ (9-33V DC)
Wattage	15W
Mounting	Stainless steel pedestal bracket for upright, side or pendant mounting.
Lead Length	2 metres
Temperature Range	-40°C to +50°C
Protection	Reverse Polarity and Transient Voltage Suppressor (TVS). Fully sealed against dust and moisture to IP6K7 and IP6K9K.

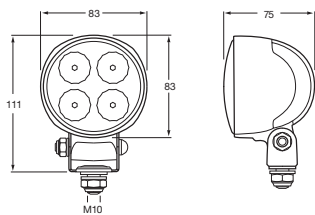

Gen II Module 70 LED 2.0m high at 10°

Accessories & Spare Part

HM70PR	Pipe mount tube attachment (rotating)
HM70PI	Pipe mount tube attachment
9.HM70BR	Module 70 stainless steel bracket
9.1517.08	Universal stainless steel pedestal bracket

:: DuraLed® Series

98060400

DuraLed® Universal High Efficacy 50 LED Spread Beam Lamp - White Housing

98060403

DuraLed® Universal High Efficacy 50 LED Spread Beam Lamp - Charcoal Housing

White Housing

Charcoal Housing

Description High intensity spread beam LED lamp for general area or interior lighting. Equipped with 50 high efficacy LEDs for superior white light output rated at 1000 lumen, the industry benchmark for lumen per watt efficacy. Ultra-durable spread beam optic Grilamid® nylon lens for extreme impact, UV, chemical and stress resistance. Fully sealed to withstand high-pressure washing.

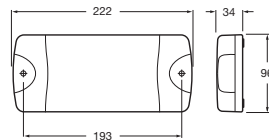

Voltage Multivolt™ (9-33V DC)

Wattage < 12W

Mounting Surface mount (mounting bushes included)

Lead Length 2.5 metres

Protection Reverse polarity and transient spike circuit protected. Fully sealed against dust and moisture to IP6K6 and IP6K7.

95903720

DuraLed® Universal High Efficacy 36 LED Spread Beam Lamp - White Housing

95903721

DuraLed® Universal High Efficacy 36 LED Spread Beam Lamp - Charcoal Housing

White Housing

Charcoal Housing

Description High intensity spread beam LED lamp for general area or interior lighting. Equipped with 36 high efficacy LEDs for superior white light output rated at 700 lumen, the industry benchmark for lumen per watt efficacy. Ultra-durable spread beam optic Grilamid® nylon lens for extreme impact, UV, chemical and stress resistance. Fully sealed to withstand high-pressure washing.

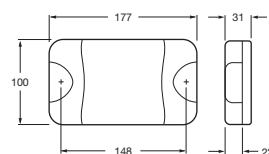

Voltage Multivolt™ (9-33V DC)

Wattage < 9W

Mounting Surface mount (mounting bushes included)

Lead Length 2.5 metres

Protection Reverse polarity and transient spike circuit protected. Fully sealed against dust and moisture to IP6K6 and IP6K7.

:: DuraLed® Series

DuraLed® Universal High Efficacy 36 LED Pencil Beam Lamp - White Housing

95903730

DuraLed® Universal High Efficacy 36 LED Pencil Beam Lamp - Charcoal Housing

95903731

Description High intensity pencil beam LED lamp for general area or interior lighting. Equipped with 36 high efficacy LEDs for superior white light output rated at 700 lumen, the industry benchmark for lumen per watt efficacy. Ultra-durable pencil beam optic Grilamid® nylon lens for extreme impact, UV, chemical and stress resistance. Fully sealed to withstand high-pressure washing.

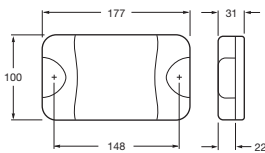

Voltage Multivolt™ (9-33V DC)

Wattage < 9W

Mounting Surface mount (mounting bushes included)

Lead Length 2.5 metres

Protection Reverse polarity and transient spike circuit protected. Fully sealed against dust and moisture to IP6K6 and IP6K7.

White Housing

Charcoal Housing

DuraLed® Universal High Efficacy 36 LED Narrow Beam Lamp - White Housing

95903740

DuraLed® Universal High Efficacy 36 LED Narrow Beam Lamp - Charcoal Housing

95903741

Description High intensity narrow beam LED lamp for general area or interior lighting. Equipped with 36 high efficacy LEDs for superior white light output rated at 700 lumen, the industry benchmark for lumen per watt efficacy. Ultra-durable narrow beam optic Grilamid® nylon lens for extreme impact, UV, chemical and stress resistance. Fully sealed to withstand high-pressure washing.

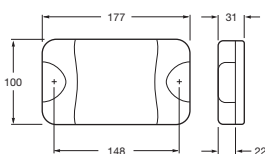

Voltage Multivolt™ (9-33V DC)

Wattage < 9W

Mounting Surface mount (mounting bushes included)

Lead Length 2.5 metres

Protection Reverse polarity and transient spike circuit protected. Fully sealed against dust and moisture to IP6K6 and IP6K7.

White Housing

Charcoal Housing

:: DuraLed® Series

98060801

DuraLed® Plus Universal High Efficacy 20 LED Spread Beam Lamp - White Housing

Description High intensity spread beam LED lamp for general area or interior lighting. Equipped with 20 high efficacy LEDs for superior white light output rated at 400 lumen, the industry benchmark for lumen per watt efficacy. Diffused optic acrylic lens for enhanced impact strength and improved tolerance to chemicals. Fully sealed to withstand high-pressure washing.

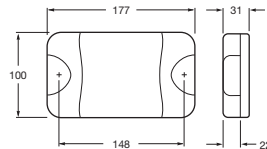

Voltage Multivolt™ (9-33V DC)

Wattage < 5W

Mounting Surface mount (mounting bushes included)

Lead Length 2.5 metres

Protection Reverse polarity and transient spike circuit protected.
 Fully sealed against dust and moisture to IP6K6 and IP6K7.

:: Strip LED Interior Lamps

2641HB-12V

High Efficacy LED Interior Lamp - White - 12V DC

2641HB-24V

High Efficacy LED Interior Lamp - White - 24V DC

Description High brightness LED strip lamp ideal for steps, storage areas, general interior and exterior courtesy lighting. Equipped with high efficacy LEDs for superior white light output rated at 200 lumen, 300% brighter than the standard equivalent. Clear acrylic lens for enhanced impact strength and improved tolerance to chemicals. Perimeter sealing gasket for neat panel fit. Shallow mounting depth allows easy installation.

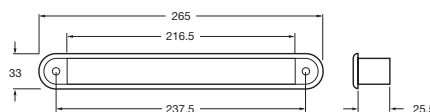

Voltage 12V DC
 24V DC

Wattage 2W

Mounting Flush mount (gasket, screws and screw caps included)

Lead Length 2.5 metres

Protection Reverse polarity protected

:: LED Front Direction Indicators

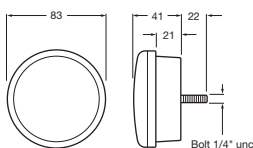

LED Front Direction Indicator - Amber (Set of 2)	ADR	2107
LED Front Direction Indicator - Amber (Pack of 1)	 ADR	2107BL
LED Front Direction Indicator - Amber (Pack of 10)	ADR	2107BULK

Description	Compact, low profile LED Front Direction Indicator fitted with amber polycarbonate lens. Fully sealed to withstand high-pressure washing.
Voltage	Multivolt™ (9-33V DC)
Wattage	4W
Mounting	Flush mount (incorporates single stainless steel mounting bolt)
Lead Length	2.5 metres
Protection	Reverse Polarity and 5.0kW Transient Voltage Suppressor (TVS). Fully sealed against dust and moisture to IP6K6 and IP6K7.
ADR	Fully compliant with 3 rd Edition ADR 6/00 Cat. 1 Front Direction Indicator Lamp (CRN 41601).

LED Front Direction Indicator - Amber Illuminated (Set of 2)	ADR	2107CLR
LED Front Direction Indicator - Amber Illuminated (Pack of 1)	 ADR	2107CLRBL
LED Front Direction Indicator - Amber Illuminated (Pack of 10)	ADR	2107CLRBULK

Description	Compact, low profile LED Front Direction Indicator fitted with clear polycarbonate lens. Fully sealed to withstand high-pressure washing. Optic appears clear until illuminated.
Voltage	Multivolt™ (9-33V DC)
Wattage	4W
Mounting	Flush mount (incorporates single stainless steel mounting bolt)
Lead Length	2.5 metres
Protection	Reverse Polarity and 5.0kW Transient Voltage Suppressor (TVS). Fully sealed against dust and moisture to IP6K6 and IP6K7.
ADR	Fully compliant with 3 rd Edition ADR 6/00 Cat. 1 Front Direction Indicator Lamp (CRN 41609).

:: LED Front Direction Indicators

2106-CS

500 Series HCS LED Front Position Lamp & Front Direction Indicator Module - Amber Illuminated

ADR

Description Low profile LED Front Direction Indicator and Front Position Lamp Module specifically designed for commercial transport applications. Features Hella patented control technology HCS (Hella Compatibility Solution) ensuring seamless communication with LED compatible flasher units. Equipped with high-intensity LEDs and clear polycarbonate lens for superior light output and impact resistance. Designed to upgrade existing Front Direction Indicators 2128, 2135 and 2136. Fully sealed to withstand high-pressure washing. **Direction Indicator optic appears clear until illuminated.**

Voltage Multivolt™ (9-33V DC)

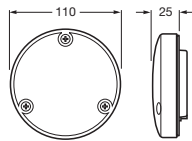

Wattage 8W

Mounting Flush mount (3 x mounting screws and screw caps included)

Lead Length 20 centimetres

Protection Reverse Polarity and 1.5kW Transient Voltage Suppressor (TVS). Sealed against dust and water ingress.

ADR/ECE Fully compliant with ECE and 3rd Edition ADR 6/00 Cat. 1 Front Direction Indicator Lamp (1 01 E24 5851) and ADR 49/00 Front Position Lamp (A 02 E24 5851).

2131-CS

500 Series HCS LED Front Position Lamp & Front Direction Indicator - Amber Illuminated · Black Housing

ADR

Description LED Front Direction Indicator and Front Position Lamp fitted with high-intensity HCS LED module, Part No. 2106-CS, and black base. Features Hella patented control technology HCS (Hella Compatibility Solution) ensuring seamless communication with LED compatible flasher units. Fully sealed to withstand high-pressure washing. **Direction Indicator optic appears clear until illuminated.**

Voltage Multivolt™ (9-33V DC)

Wattage 8W

Mounting Surface mount (seals, grommets, screws and screw caps included)

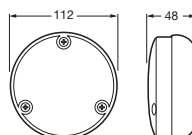

Lead Length 20 centimetres

Protection Reverse Polarity and 1.5kW Transient Voltage Suppressor (TVS). Sealed against dust and water ingress.

ADR/ECE Fully compliant with ECE and 3rd Edition ADR 6/00 Cat. 1 Front Direction Indicator Lamp (1 01 E24 5851) and ADR 49/00 Front Position Lamp (A 02 E24 5851).
