FORVIA HELLA receives four renowned customer awards in China

- The awards highlight performance, collaboration, and quality across key electronics customer programs.

International automotive supplier FORVIA HELLA has been honored with four renowned customer awards from prominent Tier customers BorgWarner, EVE, Nanjing Donghua Intelligent Steering and Henglong Group, recognizing excellence across quality, delivery, collaboration, innovation, and service in the electronics business.

“We’re honored to receive multiple customer recognitions. These awards kick-start the new year with strong business momentum and underscore our consistent execution in quality, delivery, and engineering. They reflect disciplined collaboration and targeted innovation across our electronics programs”, Says Binyi Bai, Executive Vice President of Business Group Electronics China and Member of the Executive Board Electronics at FORVIA HELLA. “The acknowledgments affirm FORVIA HELLA’s role as a close, reliable and trusted partner to our various customers in China and beyond. We will continue to meet and exceed customer expectations with innovations, cost efficiency and agility.”

At BorgWarner Supplier Day, FORVIA HELLA received the Supplier Excellence Award from BorgWarner Turbos & Thermal Technologies, reflecting comprehensive performance across quality, cost, service, and sustainability in programs including waste gate actuators (WGA) and universal turbo actuators (UTA) for global OEM platforms and standing out among more than 100 suppliers.

At EVE Energy 2026 supply chain partners conference, the Collaboration Excellence Award marked the first recognition following project start of production for 12V Li Ion Battery, 48V battery management systems, and 48V FlatPack programs supporting EU premium OEMs, selected from hundreds of suppliers.

Nanjing Donghua Intelligent Steering presented the Excellent Quality Award, its first quality-focused recognition for FORVIA HELLA, highlighting the quality of torque angle sensors (TAS) among 75 competitors. In addition, FORVIA HELLA is expanding its electronics portfolio with the customer into electronic control units (ECUs), with product launch planned for 2026.
