

PRODUCT INFORMATION

BRAKE CALIPERS WITH BRACKETS

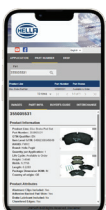

HELLA has launched new, core-free calipers with brackets for easier installation. These high-quality calipers are entirely new, not remanufactured, and designed for OE fit across various vehicles. The added brackets simplify and speed up the installation process, making them a great choice for professional repair shops.

Features & Benefits:

- 100% New Construction: No remanufactured components.
- Core-Free: No core charges, returns, or delays.
- OE Fit and Function: Designed for direct installation across a wide range of European, Asian, and Domestic vehicle applications.
- Streamlined Operations: Eliminates the hassle of core management, reducing downtime and improving service efficiency.
- **338 New Core Free Brake Calipers with brackets**

Why choose HELLA?

- Premium Quality: All calipers meet stringent safety and performance standards.
- Plug-and-Play Convenience: Most SKUs include brackets and accessories.
- Broad Coverage: Over 87% of the European fleet and rapidly expanding U.S. coverage.
- Sustainability Options: Remanufactured calipers available for eco-conscious customers.
- Traceability. Audited processes
- Surface treatment for cast calipers
