

FOUR-COLOR
LIGHT HEAD

BRIEF INFORMATION

Quad Color LED Warning Lights

- Four-color emergency warning light (red, blue, amber and white)
- User programmable with 22 flashing patterns and sync up to 8 units
- Cutting-edge side optic LED light, engineered for unparalleled visibility and durability.

PRODUCT FEATURES

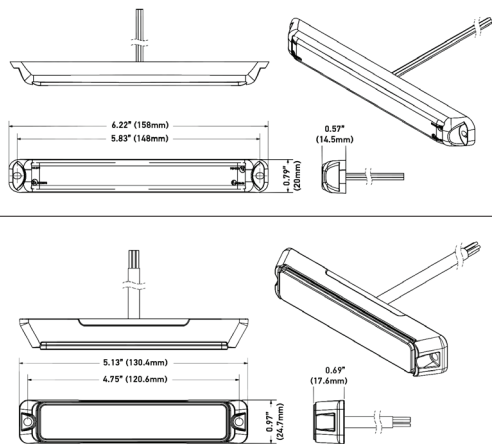

With its wrap-around design offers an impressive 180° visibility, ensuring maximum safety on the road. The quad-color LED warning lights are crafted with a sleek, low-profile, and black aluminum base. This light guarantees discreet mounting without compromising heat dissipation or durability.

The warning lights are engineered with reverse polarity protection and a weatherproof, vibration-resistant design. They're built to withstand the harshest external conditions. Versatile mounting options include surface mount, stud mount, or bracket mount for seamless installation.

Sync up to 8 units with 22 available patterns. Mounting accessories included: foam, screws, and brackets. Industry-leading 3-year warranty. Thanks to its flexible mounting options, this light can be used universally, guaranteeing increased visibility of all emergency response vehicles.
