PRODUCT INFORMATION

VEHICLE SPECIFIC LIGHTING

CAPA TIER 1 VERIFICATION PROGRAM

- HELLA is the first manufacturer to receive CAPA approval to participate in the Tier 1 Verification Program
- OE products and expertise transferred to the independent aftermarket

PRODUCT FEATURES

HELLA vehicle-specific headlights are precisely engineered to match the exact design, geometry, and lighting requirements of each vehicle model, ensuring original equipment quality and perfect fit. Developed in accordance with OEM standards, they deliver optimal light distribution, glare-free illumination, and maximum road safety in all driving conditions. High-quality materials and advanced manufacturing processes guarantee durability, resistance to weather influences, and long service life. Vehicle-specific design enables straightforward installation without modifications, preserving the vehicle's original appearance and functionality. By combining precise optics, reliable performance, and compliance with relevant regulations, HELLA headlights provide consistent visibility, enhanced driving comfort, and long-term reliability.

CAPA Tier 1 Verification Program

Global automotive supplier HELLA is pleased to announce that it is the first manufacturer to receive CAPA approval to participate in Tier 1 Replacement Parts Verification Program, which is only available to Tier 1 suppliers who also produce an in-house, alternately branded version of car company original (CCO), or car company service (CCS) parts used for automotive repair.

CAPA Tier 1 Verified parts must demonstrate compliance to all applicable federal regulations. These efforts help to ensure there are no differences when a supplier changes production from manufacturing the car company parts to the Tier 1 branded version of the part identified by the CAPA Tier 1 Verified label.
