

PRODUCT INFORMATION

STOPLIGHT/CLUTCH PEDAL SWITCH

- Direct-Fit OE Replacement: Designed for direct replacement, ensuring ease of installation.
- Versatile Application: Often compatible across a wide range of makes and models (cars, trucks, motorcycles).
- Durable Material: Designed to withstand extreme conditions, ensuring reliability

PRODUCT FEATURES

A stoplight clutch pedal switch, also known as a clutch pedal position switch, is a safety device in manual transmission cars that ensures the engine only starts when the clutch pedal is fully pressed, preventing accidental starts in gear, and often also disengages cruise control and controls ABS signals; it works by completing or breaking an electrical circuit based on pedal position, and when faulty, can cause no-starts, issues with starting, or cruise control malfunctions.

Function:

- Safety Interlock: Prevents the engine from cranking unless the clutch pedal is depressed (Clutch Safety Switch).
- Cruise Control Deactivation: Signals the cruise control system to disengage when the clutch is pressed.
- Brake Light/ABS: On some vehicles, a similar switch near the brake pedal (brake light switch) also interacts with the ABS system and brake lights, though the clutch switch is distinct for manual cars

Common Symptoms of a Bad Switch

- Car won't start (or only starts after pressing the clutch multiple times).
- Engine starts without pressing the clutch.
- Cruise control won't turn on or stays on when braking/clutching.
- Dashboard warning lights (ABS, Check Engine).

STOPLIGHT / CLUTCH PEDAL SWITCH

Location & Fix

- Located near the clutch pedal assembly, often under the dash, connected to the pedal arm.
- Often involves replacing a small plastic stopper or the switch itself if it fails mechanically or electrically.

What does HELLA offer?

Premium Technical Expertise and Service: Our technical repair shop service, being provided through our experts, is rounding off our technical service. In addition to Tech World, our Partner World offers targeted content for wholesalers, helping them to better serve their customers.

Target-oriented Marketing Services: Entire communication to market and supporting the W/D with a powerful communication package.

Vast Data Management Services: HELLA's sophisticated data management services allow for precise and efficient parts identification, ensuring that wholesalers and workshops can quickly find the right parts.

Tailormade Logistic Solutions: Our logistics are designed to meet the specific needs of our partners, ensuring timely and reliable delivery of products.

Discover the **HELLA Electronic range** by following the link above. This comprehensive portfolio offers advanced automotive electronics for all stages of vehicle electrification, from intelligent battery sensors for micro-hybrids to high-voltage battery management systems for fully electric vehicles. Our selection includes various sensors (brake, climate, rain/light, and transmission range), actuators, power electronics (DC/DC converters and onboard chargers), control units, vacuum pumps, radar systems, and smart vehicle access solutions. HELLA is committed to providing innovative and reliable electronic components that enhance the performance, safety, and efficiency of modern vehicles.
