

# PRODUCT INFORMATION

## AUXILIARY LIGHTING

- **Legendary Durability & Engineering:** Engineered for the toughest off-road challenges, these lights feature robust, waterproof, and dustproof construction using aluminum housings.
- **Superior Visibility & Safety:** Designed to significantly increase illumination, reducing the risk of accidents by providing a clear view in poor weather, on dark roads, or during off-road adventures.
- **Flexible & Easy Installation:** Designed for versatile mounting options, including on bumpers, grilles, or roofs, featuring easy, user-friendly installation.

## PRODUCT FEATURES

HELLA auxiliary lights are engineered to dramatically enhance vehicle illumination beyond standard headlights, offering powerful, precise lighting performance that improves safety and visibility in challenging conditions like dark roads, poor weather, or off-road terrain. Featuring state-of-the-art LED technology and rugged, stylish designs, HELLA auxiliary lamps deliver outstanding light output and reliable performance across a variety of applications, whether you're upgrading a work truck, off-road rig, or commercial vehicle.

Beyond individual modules, HELLA is pushing the frontier of front-end lighting innovation with integrated lighting systems that redefine vehicle front aesthetics and functionality. Multiple lighting functions—such as daytime running lights, indicators, and position lights—within a single, space-saving unit.

In addition to performance and versatility, HELLA auxiliary lights are built for durability and real-world use. Many models feature rugged housings and advanced thermal management to withstand harsh environments, while LED versions deliver energy-efficient output that reduces battery load without compromising brightness.

HELLA's reputation as a trusted automotive lighting manufacturer with decades of experience ensures that these auxiliary lights not only boost visibility and safety but also integrate seamlessly into your vehicle's lighting system, helping you tackle night-time driving or work tasks with confidence.

## AUXILIARY LIGHTING

# KNOWLEDGE OF LIGHT AND POWER

Innovations from HELLA. With HELLA, you opt for products with uncompromising quality. We work every day to make our lighting solutions even better and safer. As a result of our relentless innovative energy, we are among the first, best and even the sole suppliers or manufacturers in many areas of vehicle and lighting technology. We are currently pleased to be playing a particularly strong pioneering role with our Rallye LED using 100% LED technology.

Research and development. As in the field of stress testing where we test our products on the durability of the material and light source, HELLA lamps undergo continuous quality and performance tests for light distribution and radiation intensity. They are granted approval under the type approval requirements of the EU approval process. Different tasks require different lamps. The result is lamps of the highest quality – perfectly matched to the most diverse requirements under extreme conditions.

## RADIATION INTENSITY

### LIGHT DISTRIBUTION SHOULD BE CONSIDERED OBJECTIVELY.

Different applications require different auxiliary lights. The Isolux diagrams show a comparison of light distributions. The red-orange coloring marks the area with high illumination intensity. From yellow through green to blue, the illumination intensity decreases depending on distance. Fog light radiation is wide but not over a long distance (to avoid, as far as possible, reflection through fog droplets).

### THE LUX UNIT

As a unit of illuminance, Lux defines the luminous flux from a light source that hits a specified surface. For example, an office should be illuminated with at least 500 Lux and with just 1 Lux the human eye

can read a newspaper without any problem. The values along the Lux bar show where the respective illuminance is achieved in the light distribution diagrams.

### THE HIGH-BOOST REFLECTOR

High-boost reflectors are specially developed by HELLA to provide maximum light output. Compared to standard commercial auxiliary lights of similar size, HELLA auxiliary lights with high-boost reflectors deliver a much higher degree of efficiency with improved light output.

### THE "REF." REFERENCE NUMBER

The reference number is a value applicable to spotlights. According to the ECE Regulation in effect since 2009, the sum of the reference numbers of all the installed

lamps must not exceed the upper limit of 100 per vehicle. The two values of the standard high beam (left and right main lamps) plus the values of any other extra spotlights are added together. The reference number of HELLA spotlights as well as the E-type approval mark can be found in the catalog for each model. A high beam with a 17.5 reference number emits a wide and full beam, but not as much as a high beam with a 37.5 reference number. A high beam Ref. 37.5 is therefore ideal for long, straight distances, while a high beam Ref. 17.5 can illuminate curved routes (especially mountainous areas) better.

**Note:** In some countries, a maximum high beam power of only 75 (reference value) may be connected. In those countries, the

# AUXILIARY LIGHTING

high beam integrated into the vehicle must be inoperative when using the Ref. 37.5 high beam; however, the Ref. 17.5 high beam can generally be connected in addition.

## ECE APPROVAL:

The World Forum of Vehicle Regulations is a working party of the United Nations Economic Commission of Europe (ECE). It is tasked with creating a uniform set of regulations for vehicles, which makes them legal on the streets of participating countries.

## SAE APPROVAL:

The USA has its own set of standards, which are called the Federal Motor Vehicle Safety Standards (FMVSS), which are based on proposals of the Society of Automotive Engineers (SAE). The USA does not recognize ECE approvals.

Canada has its own Canada Motor Vehicle Safety Standards (CMVSS), broadly similar to FMVSS, but Canada does also accept ECE-compliant headlamps.

## AUXILIARY LIGHTING

### Illumination and Isolux diagrams

Using Isolux diagrams, we can illustrate and compare light distributions. The red-orange color indicates the area of high intensity illumination; the illuminance falls from yellow to green to blue depending on the distance from the light source.

Rallye 4000 Metal LED  
with Ref. 40

Rallye 40000i Xenon  
with Ref. 37.5

Rallye 4000 Halogen  
with Ref. 17.5

## FOG LAMP

Fog lamp HELLA 500  
with Ref. 12.5

## AUXILIARY LIGHTING

# HELLA AUXILIARY LIGHTING

When it comes to accessories, HELLA is always the right partner. For many years, our lighting experience has been reflected in the most varied innovations. With our wide range of auxiliary lamps, reversing lights, work lights, daytime running lights and interior lights, as well as side marker lights and interior lighting, we are one of the leading suppliers in the market. As the use of LED technology increases, HELLA strives to be at the forefront of new ideas and technologies.

More light? Of course! Should we turn night into day for you, or do you want to see the road clearly in front of you, even when the weather is bad? Our auxiliary lights stand out for their legendary performance and quality, and for the spotlights that continue to improve we offer greater safety, lighting your way ideally, whether by fog lights, long, short and wide-range spotlights.

## HELLA VALUEFIT: Proven quality at an excellent price

HELLA VALUEFIT is a specific range of auxiliary lighting fixtures, designed exclusively to meet customer requirements. HELLA VALUEFIT products offer reliable quality at a fair price. In addition, HELLA has combined decades of technological knowledge with a unique business experience. As a result, all lighting fixtures meet the relevant technical specifications, are safe, reliable and easy to install.

In addition, there is no need to dispense with important services. HELLA VALUEFIT products offer genuine added value and proven quality at an excellent price!

## HELLA X-TREME LED CUBES

- Innovative "X" LED position light in white or amber
- White or Amber PO: For individual, attention-grabbing vehicle styling (off-road use)
- In two sizes and designs with shallow mounting depth
- Remarkable 7100 lumens (4") and 5700 lumens (3") light output

Product image / Dimensions	Light Distribution	Technical Specifications	Part Number
<b>X-TREME KIT 3"</b> COMBO BEAM  	  	<ul style="list-style-type: none"> <li>• Voltage: 12-24 VDC</li> <li>• Light output (measured): 5700 lumens</li> <li>• Beam Pattern: Combo Beam</li> <li>• Power consumption: 60 Watt</li> <li>• Color temperature: 5700 Kelvin</li> <li>• Housing material: Aluminum, black stainless steel bracket</li> <li>• Number of LEDs: 28</li> <li>• Lens material: PC</li> <li>• Mounting type: upright</li> <li>• Connection: lead wires</li> <li>• Approval: ECE-R10, CISPR25 Class 3</li> <li>• Protection: IP67, IP69K</li> </ul>	<b>358233831</b> Combo Beam  <b>Content:</b> Includes: (2) LED Headlights, (1) mounting instructions, (1) wire harness with connector, and (2) smoked stone shield covers.

# AUXILIARY LIGHTING

Product image /  
Dimensions

Features

## 4" x 6" Rectangular Conversion Headlamps

### Ideal For

Retrofitting  
Replaces old sealed beam lighting technology

### Features

Produces 50% more powerful beam on low beam  
Produces 25% more powerful beam on high beam  
Single lamp fits left or right  
ECE versions for off-road use only in USA  
Dust boots included

### 003177862

High/Low Beam (ECE), 1 H4 12 V 60/55W Bulb, 1 Wiring Adapter Harness

### Part Number

### 003177821

High Beam (ECE), Kit, 2 H1 12 V 55W Bulbs, 4 Adapter Wires

### 003177871

High Beam (ECE), 1 H1 12 V 55W Bulb, 2 Adapter Wires

## Vision Plus 6" x 7" Rectangular Conversion Headlamps

### Ideal For

Retrofitting  
Replaces old sealed beam lighting technology

### Features

Based on European headlamp technology  
Brighter than a standard halogen due to improved optics without increased glare  
Produces 50% more powerful beam on low beam  
Produces 25% more powerful beam on high beam  
Single lamp fits left or right  
Replaces standard sealed beam 6052, 6053, H6052, H6054  
Direct fit – no modification  
Dust boots included  
ECE versions for off-road use only in the USA

### Part Number

003427811 High/Low Beam (ECE), Kit, 2 H4 12 V 60/55W Bulbs

003427291 High/Low Beam (SAE/DOT), 1 HB2/9003 12 V 60/55W Bulb

003427861 High/Low Beam (ECE), 1 H4 12 V 60/55W Bulb

## Vision Plus 7" Round Conversion Headlamps

### Ideal For

Retrofitting older sealed beam lamps to newer halogen replaceable bulbs

### Features

Based on European headlamp technology  
Brighter than a standard halogen due to improved optics without increased glare  
Produces 50% more powerful beam on low beam  
Produces 25% more powerful beam on high beam  
Single lamp fits left or right  
Replaces 6012, 6014, 6015, 6016, 6017, H6024, H6014, H6017, H6026  
Direct replacement for older sealed beam bulbs – no modifications  
Direct fit – no modification  
Dust boots included

### Part Number

002395801 High/Low Beam (ECE), Kit, 2 H4 12 V 60/55W Bulbs

002395301 High/Low Beam (SAE/DOT), 1 HB2/9003 12 V 60/55W Bulb

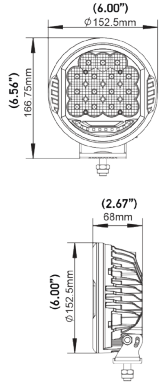

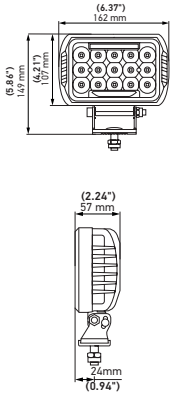

002395991 High/Low Beam (ECE), 1 H4 12 V 60/55W Bulb

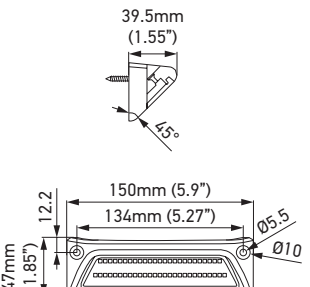

## AUXILIARY LIGHTING

# HELLA VALUEFIT AUXILIARY LIGHTS

Perfect replacement of your traditional Halogen Auxiliary lights.  
Equal in size and shape, but much higher light performance  
combined with a modern design and longer durability.

## 4LED CUBE

LED

600 lm

Flood Beam

690 lm

Spot Beam

Compact LED cubes with great light distribution, both in flood and spot beam pattern. The wide 90 degree spread flood beams provide perfect light conditions around your vehicle. The far reaching spot beams provide additional light in front of your vehicle. 1 year warranty.

Kit contains: (2) LED lights, mounting brackets and hardware, (1) relay, switch and wiring harness with DT connector

Voltage	10-30 VDC
Light pattern:	Spot Beam / Flood Beam
Light source:	LED
Power consumption:	12 Watt / 24 Watt (Kit)
Color temperature:	6000 Kelvin
Housing material:	Aluminum
Connection:	Wire leads (Single) / DT connector (Kit)
Mounting:	Stainless steel bracket
Dimensions:	3.1" x 3.4" x 3.2" / 80 x 75 x 82 mm (WxHxD)
Approvals:	IP67

**357204821** Kit, Spot Beam, Black housing  
**357204031** Flood Beam, Black housing  
**357204041** Flood Beam, White housing  
**357204831** Kit, Flood Beam, Black housing

## 6LED CUBE

LED

600 lm

The compact square design combined with 6 powerful LEDs are the perfect combination for you. Available as surface bracket mount or with a special flush mount cover to install it direct into the bumper. 1 year warranty.

Voltage	10-30 VDC
Light pattern:	Flood Beam
Light source:	LED
Power consumption:	18 Watt
Color temperature:	6000 Kelvin
Housing material:	Aluminum
Connection:	Wire leads
Mounting:	Stainless steel bracket
Dimensions:	3.1" x 3.4" x 3.2" / 80 x 75 x 82 mm (WxHxD)
Approvals:	IP67

Part Number

**357204051** Flood Beam

### 6LED Cube Flush Mount

The compact square design combined with 6 powerful LEDs are the perfect combination for you. Available as surface bracket mount or with a special flush mount cover to install it direct into the bumper. 1 year warranty.

Voltage	10-30 VDC
Light pattern:	Flood Beam
Light source:	LED
Power consumption:	18 Watt
Color temperature:	6000 Kelvin
Housing material:	Aluminum
Connection:	Wire leads
Mounting:	Stainless steel bracket
Dimensions:	4.8" x 3.6" x 3.1" / 122 x 92 x 80 mm (WxHxD)
Approvals:	IP67

Part Number

**357204021** Flood Beam

## 7" ROUND

LED

1080 lm

Driving Beam

3000 lm

Spot Beam

Classic 7" round Aux lights reflector design combined with modern LED technology. Powerful spot beam provides a bright and narrow light beam for good sight and safe maneuvering on and off the road. 1 year warranty.

Voltage	10-30 VDC
Light pattern:	Driving Beam
Light source:	LED
Power consumption:	20 Watt
Color temperature:	6000 Kelvin
Housing material:	Aluminum
Connection:	Wire leads
Mounting:	Stainless steel bracket
Dimensions:	7.0" x 8.5" x 4.2" / 178 x 178 x 106 mm (WxHxD)
Approvals:	IP67 / SAE, ECE (Driving Beam)

Part Number	357200001 Driving Beam
	357200011 Spot Beam

## 90MM SPOT LIGHT

LED

1000 lm

The compact round design combined with 6 powerful LEDs are the perfect combination for you. Available as surface bracket mount or with a special flush mount cover to install it direct into the bumper. 1 year warranty.

Voltage	10-30 VDC
Light pattern:	Spot Beam
Light source:	LED
Power consumption:	18 Watt
Color temperature:	6000 Kelvin
Housing material:	Aluminum
Connection:	Wire leads
Mounting:	Stainless steel bracket
Dimensions:	3.5" x 3.5" x 2.3" / 89 x 89 x 58 mm (WxHxD)
Approvals:	IP67
Part Number	357201001 Spot Beam

## 90MM SPOT LIGHT FLUSH MOUNT

LED

1000 lm

The compact round design combined with 6 powerful LEDs are the perfect combination for you. Available as surface bracket mount or with a special flush mount cover to install it direct into the bumper. 1 year warranty.

Voltage	10-30 VDC
Light pattern:	Spot Beam
Light source:	LED
Power consumption:	18 Watt
Color temperature:	6000 Kelvin
Housing material:	Aluminum
Connection:	Wire leads
Mounting:	Stainless steel bracket
Dimensions:	4.8" x 4.8" x 2.4" / 122 x 122 x 60 mm (WxHxD)
Approvals:	IP67
Part Number	357201011 Spot Beam

## 6LED MINN LIGHTBAR

LED

1000 lm

Thanks to its 6 high power LEDs, it is a top seller in this range. The low profile shape and the adjustable mounting bracket make this lamp a desired addition to any vehicle. 1 year warranty.

Voltage	10-30 VDC
Light pattern:	Flood Beam
Light source:	LED
Power consumption:	18 Watt
Color temperature:	6000 Kelvin
Housing material:	Aluminum
Connection:	Wire leads
Mounting:	Stainless steel bracket
Dimensions	6.3" x 1.8" x 2.5" / 160 x 45 x 63 mm (WxHxD)
Approvals:	IP67
Part Number	<b>357203001</b> Flood, Black housing <b>357203051</b> Flood, White housing

## 6LED MINI LIGHTBAR

LED

1000 lm

Thanks to its 6 high power LEDs, it is a top seller in this range. The low profile shape and the adjustable mounting bracket make this lamp a desired addition to any vehicle. 1 year warranty.

Voltage	10-30 VDC
Light pattern:	Flood Beam
Light source:	LED
Power consumption:	18 Watt
Color temperature:	6000 Kelvin
Housing material:	Aluminum
Connection:	Wire leads
Mounting:	Stainless steel bracket
Dimensions	6.3" x 1.8" x 2.5" / 160 x 45 x 63 mm (WxHxD)
Approvals:	IP67
Part Number	<b>357203011</b> Spot, Black housing

## 6LED MINI LIGHTBAR FLUSH MOUNT

LED

1000 lm

Thanks to its 6 high power LEDs, it is a top seller in this range. The low profile shape and the adjustable mounting bracket make this lamp a desired addition to any vehicle. The flush mount housing works perfect for the install direct into the bumper. 1 year warranty.

Voltage	10-30 VDC
Light pattern:	Flood Beam
Light source:	LED
Power consumption:	18 Watt
Color temperature:	6000 Kelvin
Housing material:	Aluminum
Connection:	Wire leads
Mounting:	Stainless steel bracket
Dimensions	7.7" x 2.4" x 1.8" / 195 x 62 x 45 mm (WxHxD)
Approvals:	IP67
Part Number	<b>357203031</b> Flood, Black Housing
