

BRIEF INFORMATION

WHITE BEACON DOUBLE FLASH

- LED beacon in classic tall trapezoidal design with clear lens
- Generates a high warning effect with all-round visibility due to its tall design
- With double flashing white signal function
- Classic clear dome

PRODUCT FEATURES

With its classic trapezoidal design, the White Beacon Double Flash from HELLA VALUE FIT provides a brilliant white light that stands out. Whether it's construction sites, utility vehicles, or emergency services, this beacon delivers unparalleled visibility, ensuring safety and visibility at all times. By virtue of its 4.88" (124 mm) height, it provides prominently visible even when located behind auxiliary lights on a roof bar.

Engineered for endurance, the VF White Double Flash Beacon is constructed to endure the harshest conditions. Its sturdy construction and cutting-edge LED technology guarantee sustained performance, making it the ideal choice for professionals who demand nothing less than excellence.

Our product is certified to meet the stringent standards of SAE J845, Class 1 and offers electromagnetic compatibility in line with ECE R10 SAE, Class 1, ensuring its reliability and adherence to industry regulations.

The high-impact resistant, polycarbonate textured lens provides intense output with a professional look which renders better optical clarity.

With its 24 LED modules, the internal structure of the reflectors enables a homogeneous light output across the entire height of the lens. The beacon includes protection: IP69K, IP67, electromagnetic compatibility, polarity reversal protection, and over-voltage protection.

TECHNICAL DETAILS

Technical Data		Dimensional sketch
Color	White	
Voltage	10 - 30 VDC	
Flash Pattern	Two pulses in one flash (0.8 - 2Hz)	
Approval	SAE J845 Class 1, ECE R10, ROHS	
Lens	Clear, textured, impact resistant polycarbonate	
Power Consumption	24 Watt	
Housing Material	Plastic	
Mounting	Screw	
Connection	11.41" (290mm) cable with open wires	
Synchronization	Up to 8 units	
Scope of Delivery	Warning beacon and mounting instructions.	
Operating Temperature	-40°C / +60°C
