

BRIEF INFORMATION

Rear Wiper

- OE Like Design
- Extended Coverage with Multi-Clip system

PRODUCT FEATURES

TECHNOLOGY TRENDS

- A growing trend for rear too
- Stylish and enhanced performance

CHALLENGES

- Many connections and lengths – Complex
- Large number of PN's required to cover
- Often gets forgotten – Lost opportunity

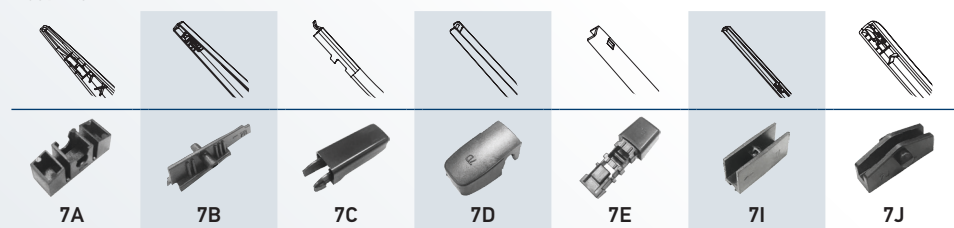

SOLUTION (BY HELLA)

- Short range
- Multi-adapters
- Stock reduction – High coverage

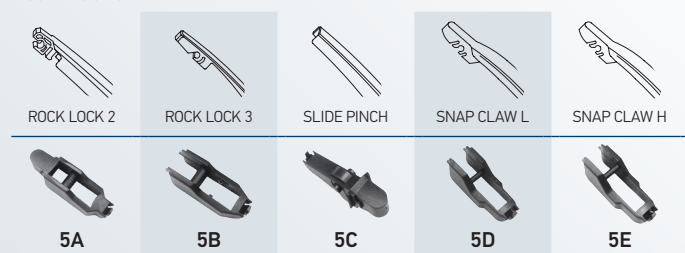

Dirt, rain and snow is swirled upwards towards the rear windscreen when driving – this can pose a problem if not cleaned effectively. HELLA replacement rear wiper blades are designed to cut through all these extreme conditions, delivering a clean rear view for maximum visibility. Replacing and installing the blades is quick and easy thanks to the Easy-to-fit system. Included is a Multi-Clip-System that extends their application to a wide variety of vehicles.
