

BRIEF INFORMATION

Winter Wiper

- Anti-Clogging Technology
- Winter Rubber profile
- Extended Coverage with Multi-Clip system

PRODUCT FEATURES

TECHNOLOGY TRENDS

- Specific to certain markets with harsh winters
- For both cars & trucks

CHALLENGES

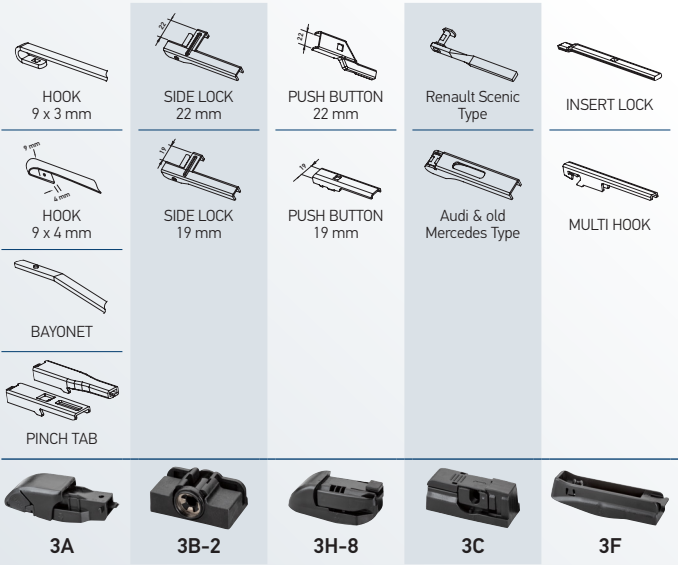

- Right design to prevent joints from freezing
- Right Performance and price

SOLUTION (BY HELLA)

- Short range
- Solid rubber cover construction
- Multi-clip > Extended coverage

Winter weather conditions, such as blowing snows, freezing rain and road salt are very hard on wiper blades. HELLA winter blades have a tougher tensile strength that allows them to sweep off the snow on your windscreen, streak free, without clogging up. They have a solid and stable frame construction that resists deformation even under the toughest wiping conditions.
