

BRAKE SYSTEMS

PRODUCT INFORMATION

HIGH CARBON ROTORS

HELLA High Carbon Rotors are designed to deliver motorsports performance and reliability in a wide range of everyday road vehicles. Using OE specifications, HELLA is able to provide exact fit and finish, while providing better material content to give customers more confidence in the stopping power of their vehicles.

HELLA High Carbon Rotors are designed to match perfectly with HELLA brake pads and wear sensors to deliver maximum performance in terms of safety, comfort and service life.

High Carbon:

- Less prone to warpage
- Quieter operation
- Two piece OEM spec BMW range versions available

Coated:

- Easy installation
- No cleaning required
- Keeps rotors looking great for miles

Quality:

- **X-ray checked** for air pockets, to assure rotors won't crack
- Same internal design as **OEM**
