PRODUCT INFORMATION

WEAR SENSORS

HELLA's new wear sensor range is produced 100% in Europe. Each wear sensor is meticulously produced with injection molding processes to withstand the most harsh conditions. Hella offers over 240 additional wear sensors. If a brake pad is designed for a warning contact as standard but is delivered without one, we provide the option for customers to install it to ensure safety.

HELLA electronic wear indicators are known for their high heat resistance and excellent insulation. Hella wear sensors are designed to match perfectly with Hella brake pads to deliver maximum performance in terms of safety, comfort and service life.

- **Injection Molded** for durability and quality
- Excellent thermal insulation
- Highly resistant to heat
- **100% made in Europe**
- OE manufacturer
- 240+ wear sensors
- 90% European coverage
