

LEDayFlex III
LED combination lamp

UNLIMITED
STYLE.

YOUR VEHICLE. YOUR STYLE.

The new LEDayFlex III universal combination lamp brings unlimited style to the road.
Individual. Modular. Flexible.

STRIKING APPEARANCE, CUTTING EDGE DESIGN!

The outstanding LEDayFlex III modules are strongly compelling.
Whether horizontal, vertical or diagonal, flexible alignment options
give each headlamp a strong individual character.*

FLEXIBLE MODULARITY, UNLIMITED STYLE!

The new modular lighting system promises maximum technology and design freedom:
it can be chosen between three and five LEDayFlex III modules for each side of the vehicle.
The other individual options for arranging the modules make the headlamps unmistakable.
Clear signatures will significantly change the street landscape.

* Please observe the relevant country-specific legal requirements and guidelines for vehicles in the installation instructions.

THIRD GENERATION, TRIPLE FUNCTION!

The LEDayFlex III is the next generation of the established LEDayFlex family. This new developed lamp has three LED light functions: daytime running light, position light and direction indicator light [also with wiping function]. The clincher is that all three functions have convincing, innovative EdgeLight technology.

Daytime running light

Position light

Direction indicator light

CLEAR SIGNATURE, CLEAR EDGE!

EdgeLight technology provides a clear signature thanks to the edge that radiates light. Furthermore, it provides a very homogeneous light distribution so that LED spots cannot be detected individually.

UNIVERSAL LIGHT ATMOSPHERE, FLOATING MODULES!

Floating light modules emanate brightness from the front of the vehicle, sometimes flashing, sometimes shining, but always with a clear view. They embody fascinating state-of-the-art design and infinite style.

INDIVIDUAL OPTIONS,
CREATIVE REQUIREMENTS!

The new LEDayFlex III combination lamp was developed especially for universal front lighting.

Thanks to their clear shape, the modules can be harmoniously integrated into any headlamp.
This allows infinite scope for individuality and creativity.
