HELLA - PIONEER IN LIGHTING TECHNOLOGY

HELLA is a leader in the independent aftermarket for vehicle-specific lighting with a wide market coverage. We have been developing vehicle lighting for more than 120 years and our innovative strength means we are continuously improving and expanding our range, resulting in increased safety for drivers.

OE EXPERTISE FOR THE INDEPENDENT AFTERMARKET

With a broad OE quality aftermarket range, HELLA is the leader in the European market. Our products for the independent aftermarket have the same quality levels offered in series production; produced in the same factories, with the same machines and same rigorous testing procedures.

When it comes to new OE technologies HELLA is at the forefront. Our high definition, digital intelligent lighting i.e. the SSL | HD provides unique lighting features such as glare-free high beam, optical lane assist, predictive road illumination and icon projection.

FOR LIGHTING TRUST THE EXPERTS

HELLA is a partner of renowned, international automotive manufacturers across passenger cars, light commercial vehicles and trucks and we transfer this OE know-how directly to the independent aftermarket. Our vehicle specific lighting includes:

HEADLAMPS

FOG LAMPS

REAR LAMPS

HELLA - ELECTRONICS FROM ONE OF THE WORLD'S LEADING OEMS

HELLA is recognised as one of the leaders in innovative electronics manufacturing for leading vehicle OEMs. Some of the following components have built HELLA's reputation as a technology leader in vehicle electronics:

ADAS radar assemblies

Ultrasonic Oil Level Sensors

Pedal Sensors

Electronic Turbo Wastegate Actuators

Voltage Regulation Modules

HELLA - ELECTRONIC REPLACEMENT PARTS FOR THE AFTERMARKET

Bringing our OE expertise of innovative, quality electronic products to the aftermarket, HELLA offers a comprehensive range of vehicle replacement electronics to keep your vehicle running reliably and trouble free. HELLA can offer the electronic parts below for a large selection of vehicles:

HELLA AFTERMARKET CATALOGUE

WORLD CLASS QUALITY AND SERVICE COMBINED

HELLA PAGID BRAKE SYSTEMS is the result of a joint venture between two of the world's leading Original Equipment suppliers: HELLA and TMD Friction, the driving force behind leading European brake friction brand, PAGID.

HELLA PAGID offers a comprehensive range of replacement braking components for the growing number of European passenger cars on Australia's roads, backed by the local knowledge and expertise of HELLA Australia's dedicated team.

EUROPEAN BRAKES FOR EUROPEAN MAKES

Designed and engineered for European vehicles, from city cars to supercars. TMD Friction's extensive Original Equipment programme means many European cars roll off the production lines equipped with PAGID brake friction as standard.

The HELLA PAGID BRAKE SYSTEMS product range covers 99% of European passenger cars and light commercial vehicles, including all the top selling European models in Australia and New Zealand.

OE Expertise:
Standard for many European vehicles

High quality:
Designed, engineered and tested for European vehicles

Wide coverage:
Available for 99% of European cars

THE HELLA PAGID RANGE

A comprehensive and complete brake service solution:

- Brake pads and discs
- Brake shoes and drums
- Wear indicators
- Fitting accessories

FIND THE RIGHT PART, FAST!

Our flexible online **BrakeGuide** helps you to quickly identify the best brake solution for each vehicle.

A mobile version of the Brake Guide is also available from both the iOS and Android App stores.
