mega macs S 20

Secure Gateway access for all popular manufacturers

Secure Gateways are locking down access to an ever-increasing number of vehicles. Everyday service jobs like winding back the brake calipers on a VW Golf 8 can't be completed without a diagnostics tool that provides access through the secure gateway. That's where Hella Gutmann comes in!

With Hella Gutmann diagnostic tools, there is a one-time 10-minute sign-up process and then access through secure gateways for all popular manufacturers is yours. Even better, there's no extra cost involved!

SECURE GATEWAY ACCESS INCLUDES:

Alfa Romeo | Audi | BMW | Chrysler | Cupra | Dacia | Fiat | Hyundai | Jeep | Kia | Mercedes
Mitsubishi | Nissan | Polestar | Renault | Seat | Skoda | Smart | Volvo | VW

*Normal package price £2450. Available until 31st December 2026.
