

BRIEF INFORMATION

Oval 100 LED Gen. 2

- Powerful LED worklight
- Modular series – easy conversion
- More than twice as much light as Generation 1

PRODUCT FEATURES

The Oval 100 LED Generation 2 supplement the halogen and xenon variants already in the modular series with an additional worklight with efficient LED technology. The worklight can be operated at both 12 V and 24 V. The integrated electronics protect the device in the event of polarity inversion and guarantee constant brightness, even when the operating voltage fluctuates between 9 and 32 volts.

The light output is a powerful 4,400 lumen which means that the Oval 100 LED Gen. 2 can replace the xenon worklights without any problems. The light is distributed by a specially developed multi-faceted reflector, thus ensuring homogeneous illumination. The Oval 100 LED Gen. 2 can be installed upright (0°) or suspended (180°). At 6,500 Kelvin, the light of the LED worklight is very similar to daylight. This means that colours can be distinguished more clearly in the dark than in the yellowish light of halogen bulbs. This makes sensory perception through the human eyes much easier and they tire less quickly.

The worklight's black housing is made of aluminium and incorporates cooling fins. These ensure sufficient heat dissipation from the 8 high-power LEDs. In addition, a sensor protects the worklight from overheating. This is the only way in which the long service life of the LEDs (up to 30 times longer than a xenon gas discharge lamp) can be exploited. The integrated electronics are protected against inverse polarity and equipped with an LED fault jumper.

TECHNICAL DETAILS

Technical Data

Operating voltage/ Rated voltage	9 – 32 V
Recommended angle of inclination	Close-range: 12°, long: 5°
Light source type	8 high-power LEDs
Power consumption	56 W (12 V), 54 W (24 V)
Light output	4,400 lm
Colour temperature	6,500 kelvin
Protection class	IP 6K9K and IP 6K8
Type approval	Ⓜ, ECE-R10
Housing	Aluminium die cast
Light exit area	135 x 85 mm
Weight	920 g

Dimensional sketch

RANGE OVERVIEW

1GA 996 761-...	-001	-011
Close-range illumination	X	-
Long-range illumination	-	X
Upright mounting	X	X
Pendant mounting	X	X
Bracket width	42 mm	42 mm
DEUTSCH connector	X	X
Nylon lens	X	X
Protected against overheating	X	X
Polarity reversal protection	X	X

LIGHT DISTRIBUTION

Close-range illumination

Long-range illumination
