MASTER OF
MEASUREMENT

The longest light tunnel in Europe has its home in Lippstadt, Germany – at HELLA. With a length of 140 meters, it's a unique tool to perform extensive tests.

TESTED QUALITY

Geometrical Measurement

A measuring projector is used to check the filament geometry – with regard to the statutory standards in accordance with IEC 60810. The filament must be dimensioned and positioned within the bulb as specified in the standard. This is the only way to achieve optimum headlight power and prevent glare to oncoming traffic.

Vibration and Shock Test

Here, vibration resistance of the bulb and the filament in particular, is tested on an electrodynamic vibration table.

Lifetime Test

Sophisticated tests are used to prove the high reliability of the Hella bulbs over a long period.

Paint Adhesion Test

The adhesion of paint on colored glass bulbs – such as the PY21W for example – is tested in a climate chamber at different temperatures and air humidities. Optimum adhesion of glass bulb paint guarantees the prescribed amber indicator light over the whole service life period.

Light Flux Measurement

The Ulbricht sphere and goniometer are used to determine the light fluxes and luminous intensities of the Hella bulbs. This guarantees optimum light output of the bulbs.

HELLA CARTON RANGE

THE RIGHT PRODUCT FOR ALL REQUIREMENTS

AFFORDABLE SAFETY

» Laura, 33 & Thomas, 39 – Proud Parents

“It is all about safety – and if we can save money, it is a perfect match!”

A PRODUCT THEY CAN TRUST

PASSIONATE DRIVER

» Ralph, 46 – Driving Enthusiast

“Driving is my passion. The more and the earlier I see, the better. I am only satisfied with the best!”

MORE LIGHT WHERE YOU NEED IT

PROFESSIONAL DRIVER

» Michael, 34 – Taxi Driver

“Driving is my job. All day. Every day. Reliable and longer lasting bulbs are what I need.”

EXTENDED LIFETIME

STYLISH DRIVER

» Lukas, 29 – Individual Style Lover

“Style matters – Especially for my car. I want to look cool and people to know it. Plus I like the additional comfort.”

DRIVE IN STYLE

SAFETY & COMFORT

» “See and be seen with the modern HELLA Xenon technology as proven milestone for both driving safety and comfort.”

XENON

WHICH BULB IS THE RIGHT ONE FOR YOU?

Drivers have different requirements for their vehicles, and therefore also for the light. HELLA introduces a customer-oriented solution with its simplified bulb product range. Whether customers are price-oriented drivers, travel a lot professionally, or put a lot of emphasis on style: HELLA bulbs meet all requirements.

» "It is all about safety – and if we can save money, it is a perfect match!"

STANDARD

Available in
H1, H4, H7, H11 and
also H15, H18, H19, ...
HELLA has them all

AFFORDABLE SAFETY

- A popular classic – HELLA halogen bulbs
- Perfect fit for our customers' safety needs
- Tested quality
- Ideal value-for-money

» “Driving is my passion. The more and the earlier I see, the better. I am only satisfied with the best!”

**PERFORMANCE
+60 %**

Available in
H1, H4, H7

PASSIONATE DRIVERS

- Performance **+60 %***
- See further – More light for better visibility
- React faster – Shorter reaction time
- Better visibility and more comfortable ride
- Up to 60 % more brightness*
- Up to 25 meters* more visibility

- Performance **+120 %***
- See further – More light for better visibility
- React faster – Shorter reaction time
- Better visibility and more comfortable ride
- Up to 120 %* more brightness
- Up to 50 meters* more visibility

**PERFORMANCE
+120 %**

Available in
H1, H4, H7

* Compared to standard halogen bulbs (luminous flux)

» "Driving is my job. All day. Every day. Reliable and longer lasting bulbs are what I need."

LONG LIFE

Available in
H1, H4, H7, H11, H16

PROFESSIONAL DRIVERS

- Durable and reliable
- Up to 3 x longer lifetime than required by ECE
- Longer lifetime – Lower maintenance

» "Style matters – Especially for my car. I want to look cool and people to know it. Plus I like the additional comfort."

WHITE LIGHT

Available in
H1, H4, H7

DRIVING IN STYLE

- Perfect combination of style and comfort
- Stylish white Xenon look
- Up to 30 %* more light
- More safety due to higher contrast

* Compared to standard halogen bulbs (luminous flux)

» “See and be seen with the modern Hella Xenon technology as proven milestone for both driving safety and comfort.”

XENON

Available in
D1S, D2S, D2R, D3S, D4S

SAFETY & COMFORT

- Brighter and wider light distribution*
- OE-tested quality
- More than twice the brightness*
- Homogeneous light distribution

» The Driver is what matters! Comfort in the cabin is key. Upgrade to LED** lamps for a long lasting improved experience.

LED RETROFIT

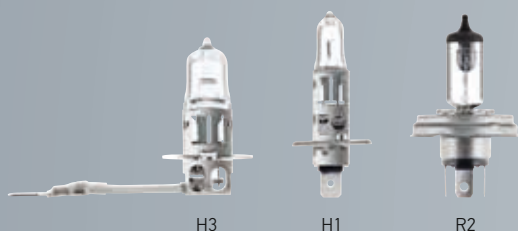

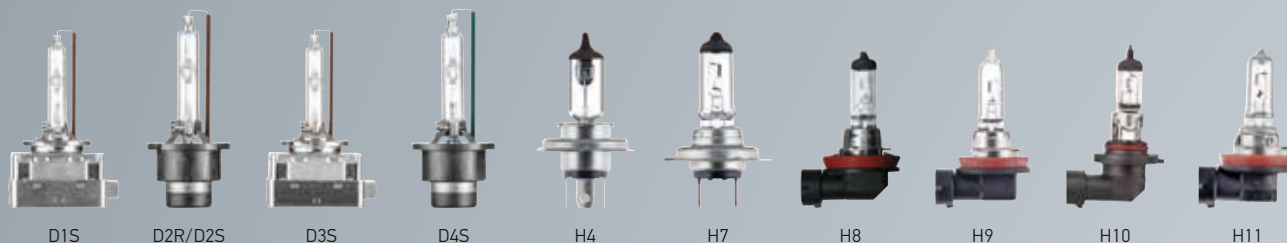

INTERIOR IN STYLE

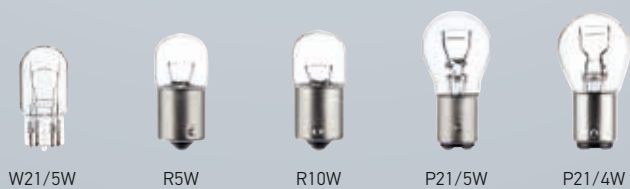

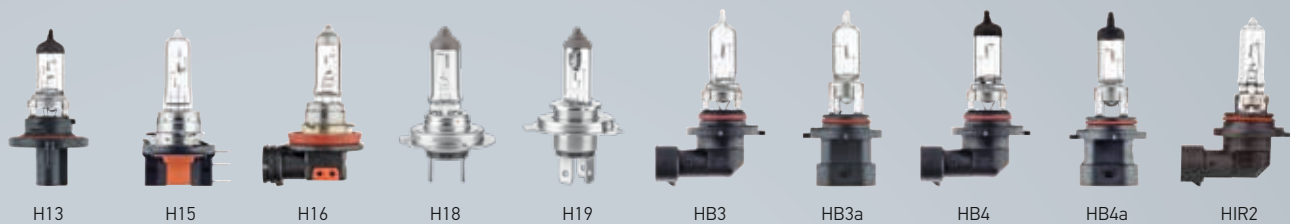

- Long lasting performance
- White light for improved comfort (reduced fatigue)
- Improved contrasts

* Compared to standard halogen bulbs (luminous flux) ** For interior use only

H1, H4, H7

* Compared to standard halogen bulbs (luminous flux)

» “Driving is my job. All day. Every day. Reliable and longer lasting bulbs are what I need.”

LONG LIFE

Available in
H1, H4, H7, H11

PROFESSIONAL DRIVERS

- Durable and reliable
- Up to 3 x longer lifetime than required by ECE
- Longer lifetime – Lower maintenance

» “Style matters – Especially for my car. I want to look cool and people to know it. Plus I like the additional comfort.”

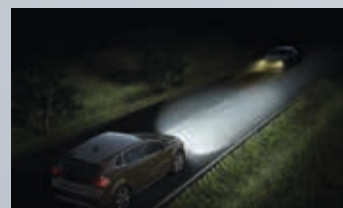

WHITE LIGHT

Available in
H1, H4, H7

DRIVING IN STYLE

- Perfect combination of style and comfort
- Stylish white Xenon look
- Up to 30 %* more light
- More safety due to higher contrast

» “See and be seen with the modern HELLA Xenon technology as proven milestone for both driving safety and comfort.”

XENON

Available in
D1S, D2S, D2R, D3S, D4S

SAFETY & COMFORT

- Brighter and wider light distribution*
- OE-tested quality
- More than twice the brightness*
- Homogeneous light distribution

» The Driver is what matters! Comfort in the cabin is key. Upgrade to LED** lamps for a long lasting improved experience.

LED RETROFIT

INTERIOR IN STYLE

- Long lasting performance
- White light for improved comfort (reduced fatigue)
- Improved contrasts

* Compared to standard halogen bulbs (luminous flux) ** For interior use only

RIDE IN STYLE

WHICH BULB IS THE RIGHT ONE FOR YOU?

Motorcyclists have differing requirements for their vehicles, and therefore also for the light. HELLA has found a customer-oriented solution with its simplified bulb product range. No matter whether customers mainly drive in city traffic, like taking cross-country tours, or even sometimes take to the racetrack: HELLA bulbs meet all these requirements.

» "See and be seen – That's what I'm looking for, while navigating the challenges of the city."

TWO WHEELERS – BLISTER

LIGHT UP YOUR BUSINESS

AGRICULT

S URE

HELLA CARTON RANGE

THE RIGHT PRODUCT FOR ALL REQUIREMENTS

THE PRICE-CONSCIOUS FARMER

» Daniel, 41 – Farmer

“Safety, reliability, durability, at a fair price that’s what I’m looking for.”

A PRODUCT THEY CAN TRUST

THE PROFESSIONAL FARMER

» Peter, 55 – Agricultural contractor

“During the season, my machines run day and night. Xenon Bright light is a must.”

SAFETY AND COMFORT

BE SEEN

- » Full range of miniatures –
Safety for you and others.

MINIATURES

WHICH BULB IS THE RIGHT ONE FOR YOU?

Farmers have differing requirements for their vehicles, and therefore also for the light. HELLA has found a customer-oriented solution with its simplified bulb product range. No matter whether customers practice agriculture as a hobby, or their job has them in the field at any time of the day or night: HELLA bulbs meet all these requirements.

» "Safety, reliability, durability, at a fair price that's what I'm looking for."

STANDARD

Available in
H1, H4, H7, H11 and
also H15, H18, H19, ...
HELLA has them all

AFFORDABLE SAFETY

- A popular classic – HELLA halogen bulbs
- Perfect fit for our customers' safety needs
- Tested quality
- Ideal value-for-money

» Best reliable Xenon lights also for Trucks.

XENON

Available in
D1S, D2S, D2R, D3S, D4S

SAFETY & COMFORT

- Brighter and wider light distribution*
- OE-tested quality
- Twice the brightness*
- Homogeneous light distribution

» Full range of miniatures – Safety for you and others.

STANDARD

Available in
R5W, R10W, P21W,
PY21W, W5W, ...

BE SEEN

- Full coverage of all bulb types
- Specifically developed for extreme requirements
- Vibration resistant

* Compared to standard halogen bulbs (luminous flux)

LED RETROFIT

MODERN LIGHT IN THE VEHICLE INTERIOR IN AN INSTANT – WITH THE NEW LED RETROFIT LAMPS

The use of LED lighting is becoming increasingly relevant in vehicles. Intelligent lighting systems with LEDs not only provide new opportunities in the area of headlamps and rear lamps, but also for the vehicle interior. Apart from their pleasant colour temperatures and realisable brightness, the new LED Retrofit lamps from HELLA are attractive because of their greater energy efficiency and long service life*.

Retrofitting them is quick and easy thanks to the practical “Plug & Play” principle. You can individually set the tone inside your vehicle by choosing between cold white and warm white.

Legal Notes

LED Retrofit lamps do not comply with the ECE standard. They may only be used for offroad applications or in the vehicle interior. Any use on public roads will invalidate your operating permit and insurance cover.

Conventional light source

HELLA LED Retrofit

* Compared to standard halogen bulbs

**Advantages of the new LED Retrofit lamps from HELLA
in comparison to conventional small lamps**

- Long lifetime
- Two different light colours to choose from (warm white 4,000 K and cold white 5,000 K)
- Can be used for interior and offroad
- Simply upgrade to LED technology with the "Plug & Play" principle
- Homogeneous light distribution
- Many different applications possible in vehicle interior
- Considerably lower energy consumption*
- Impact and vibration-resistant

SPARE KITS

ALWAYS READY

Vehicle lamps always fail when you need them the most, while driving at night in bad weathers when all stores are closed. To get you covered, HELLA offers different assortment boxes.

Visibility is critical to safety. HELLA's assortment boxes include not only common headlamps, but also signal, indicator and marking lamps, plus the right selection of fuses.

  24 V				
24 V Spare kits	 	86J 002 525-941	1	24 V

LIGHT EXPLAINED

THE HUMAN EYE

Discomfort Anxiety

We drive at night because we HAVE to. But are we properly equipped to do so?

No glare

Simulated glare

Light & Speed

Did you know? Speed leads to a reduction of the field of vision.

Field of vision: 100°

Field of vision: 75°

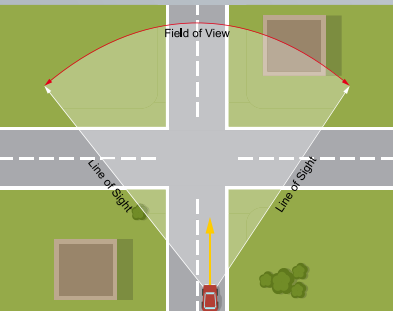

Field of vision: 45°

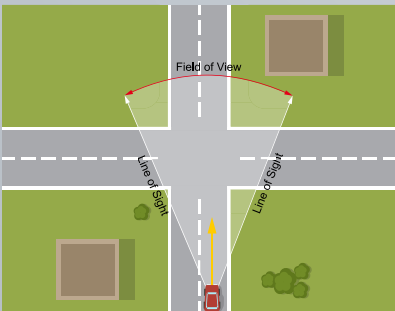

Field of vision: 30°

Light & Age

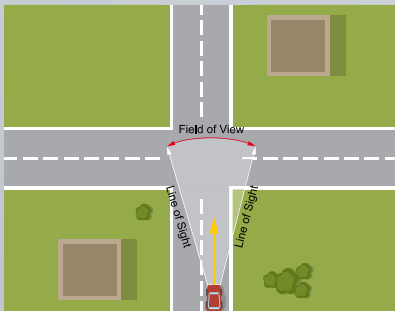

With age, the field of vision gets smaller.

16 years old

46 years old

76 years old

LIGHT IS

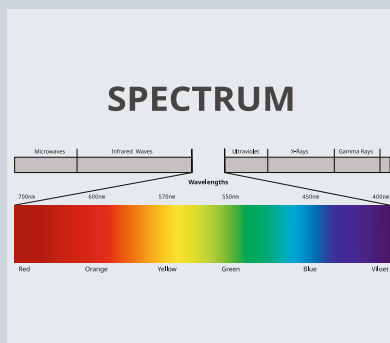

Light is:

- An electromagnetic radiation
- Travelling at 300,000 km/s
- Light is HEAT

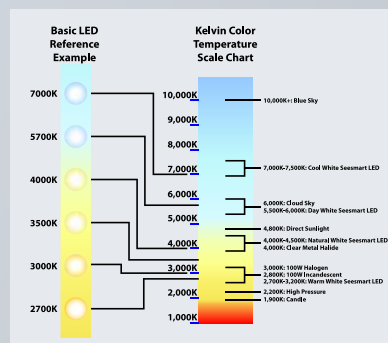

Wavelengths

- Visible field is between 400 to 700 nanometers

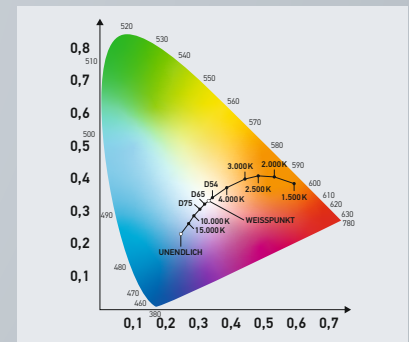

White is

- A colour temperature as close as possible to the sunlight 4,800k
- HELLA White lamps have 4,200k

Color

- CCT measures the Correlated Color Temperature

Benefits

- Higher contrast of objects on the road
- Bluish-white light color (HID effect)
- More brightness compared to standard lamps
- Stylish look

LIGHT EXPLAINED

MORE LIGHT MEANS

- More lumens where you need them on the road
- Extended range (Wider / longer)
- Beam pattern respecting the regulation: adequate forward and lateral illumination without blinding other drivers
- „More light“ comes at a cost however: a shorter lifetime

LONG LIFE IS

- Lifetime of bulbs cannot be defined in numbers of kilometers or years. It is rather defined as hours of operation.
- For bulbs, 2 measurements are used: B3 and Tc.
- B3 is the minimum number of hours to which 97 % of the lamps belong. After this time, the number of bulbs failing increases.
- TC indicates where 63 % percent of the lamps failed.
- On average, a standard H7 12 V lamp has a B3 of 300 h and Tc of 500 h according to the IEC requirements. Long life bulbs offer up to 3 times that value → Reduce the change intervals.

HALOGEN

- Simple light source – Tungsten filaments in a glass capsule filled with inert and halogen gas
- Great price-performance ratio
- Simple functionality → Manual leveling

XENON

- Better light output
- Gas discharge lamps produce light by passing electricity through ionized xenon gas at high pressure
- Automatic leveling + headlamp cleaning (> 2,000 lm)
- Costlier maintenance required

LED

- High Light Output vs. Xenon / Halogen
- Virtually maintenance free
- Automatic leveling + headlamp cleaning (> 2,000 lm)
- Highest degree of design freedom

LED "Retrofit" does not have ECE approval

- This means they cannot be used on public roads in any exterior application
- Use on public roads can lead to cancellation of driving licence and loss of insurance coverage. Various countries do not allow sale and use of these products

BUSINESS.

SIMPLIFIED.

EVERYTHING WE DO REVOLVES AROUND OUR CUSTOMERS

In order to ensure that business runs smoothly, HELLA supports wholesalers as your daily business is already complicated enough. That's why we see it as our job to make this as simple as possible for you.

For the aftermarket, we offer outstanding availability of goods using sophisticated logistics and first-class data management as well as targeted sales support. This speeds up and simplifies the wholesale business – for greater efficiency.

We support workshops throughout the entire repair process. We search proactively for new solutions to help independent workshops successfully master the growing complexity of the different models so that customer cars can „hit the road“ that much faster. This is how we make your daily business run faster and more profitable.
