SOURCES

HELLA GUTMANN

MASTER OF
MEASUREMENT

The longest light tunnel in Europe has its home in Lippstadt, Germany – at HELLA. With a length of 140 meters, it's a unique tool to perform extensive tests.

TESTED QUALITY

Geometrical Measurement

A measuring projector is used to check the filament geometry – with regard to the statutory standards in accordance with IEC 60810. The filament must be dimensioned and positioned within the bulb as specified in the standard. This is the only way to achieve optimum headlight power and prevent glare to oncoming traffic.

Vibration and Shock Test

Here, vibration resistance of the bulb and the filament in particular, is tested on an electrodynamic vibration table.

Lifetime Test

Sophisticated tests are used to prove the high reliability of the HELLA bulbs over a long period.

Paint Adhesion Test

The adhesion of paint on coloured glass bulbs – such as the PY21W for example – is tested in a climate chamber at different temperatures and air humidities. Optimum adhesion of glass bulb paint guarantees the prescribed amber indicator light over the whole service life period.

Light Flux Measurement

The Ulbricht sphere and goniometer are used to determine the light fluxes and luminous intensities of the HELLA bulbs. This guarantees optimum light output of the bulbs.

HELLA RANGE

THE RIGHT PRODUCT FOR ALL REQUIREMENTS

AFFORDABLE SAFETY

» Laura, 33 & Thomas, 39 – Proud Parents

“It is all about safety – and if we can save money, it is a perfect match!”

A PRODUCT YOU CAN TRUST

PASSIONATE DRIVER

» Ralph, 46 – Driving Enthusiast

“Driving is my passion. The more and the earlier I can see, the better. I am only satisfied with the best!”

MORE LIGHT WHERE YOU NEED IT

PROFESSIONAL DRIVER

» Michael, 34 – Taxi Driver

“Driving is my job. All day. Every day.
Reliable and longer lasting bulbs are what I need.”

EXTENDED LIFETIME

STYLISH DRIVER

» Lukas, 29 – Individual Style Lover

“Style matters – Especially for my car. I want to look cool and people to know it. Plus I like the additional comfort.”

DRIVE WITH STYLE

SAFETY & COMFORT

» “See and be seen with the modern HELLA Xenon technology a proven milestone for both driving safety and comfort.”

**XENON AND
XENON WHITE LIGHT**

WHICH BULB IS THE RIGHT ONE FOR YOU?

Drivers have different requirements for their vehicles, and therefore also for the light. HELLA introduces a customer-oriented solution with its simplified bulb product range. Whether customers are price-oriented drivers, travel a lot professionally, or put a lot of emphasis on style: HELLA bulbs meet all requirements.

» "It is all about safety – and if we can save money, it is a perfect match!"

STANDARD

Available in
H1, H4, H7, H11 and
also H15, H18, H19, ...
HELLA has them all

AFFORDABLE SAFETY

- A popular classic – HELLA's halogen bulbs
- Perfect fit for our customers' safety needs
- Tested quality
- Ideal value-for-money

» "Driving is my passion. The more and the earlier I can see, the better. I am only satisfied with the best!"

**PERFORMANCE
+60 %**

Available in
H1, H4, H7

PASSIONATE DRIVERS

- Performance **+60 %***
- See further – More light for better visibility
- React faster – Shorter reaction time
- Better visibility and more comfortable ride
- Up to 60 % more brightness
- Up to 25 meters* more visibility

- Performance **+120 %***
- See further – More light for better visibility
- React faster – Shorter reaction time
- Better visibility and more comfortable ride
- Up to 120 %* more brightness
- Up to 50 meters* more visibility

**PERFORMANCE
+120 %**

Available in
H1, H4, H7

* Compared to standard halogen bulbs (luminous flux)

» "Driving is my job. All day. Every day. Reliable and longer lasting bulbs are what I need."

LONG LIFE

Available in
H1, H4, H7, H11, H16

PROFESSIONAL DRIVERS

- Durable and reliable
- Up to 3 x longer lifetime than required by ECE
- Longer lifetime – Lower maintenance

» "Style matters – Especially for my car. I want to look cool and people to know it. Plus I like the additional comfort."

WHITE LIGHT

Available in
H1, H4, H7

DRIVE WITH STYLE

- Perfect combination of style and comfort
- Stylish white Xenon look
- Up to 30 %* more light
- More safety due to higher contrast

* Compared to standard halogen bulbs (luminous flux)

» "See and be seen with the modern HELLA Xenon technology a proven milestone for both driving safety and comfort."

XENON & XENON WHITE LIGHT

Available in
D1S, D2S, D2R, D3S, D4S

SAFETY & COMFORT

- Brighter and wider light distribution*
- OE-tested quality
- More than twice the brightness*
- Homogeneous light distribution

» The Driver is what matters! Comfort in the cabin is key. Upgrade to LED* lamps for a long lasting improved experience.

LED RETROFIT

INTERIOR IN STYLE

- Long lifetime
- White light for improved comfort (reduced fatigue)
- Improved contrasts
- High light intensity

* Compared to standard halogen lamps (luminous flux) ** For interior use only

LIGHT UP YOUR BUSINESS

AGRICULTURE

S
URE

HELLA RANGE

THE RIGHT PRODUCT FOR ALL REQUIREMENTS

THE PRICE-CONSCIOUS FARMER

» Daniel, 41 – Farmer

“Safety, reliability, durability, at a fair price that’s what I’m looking for.”

A PRODUCT YOU CAN TRUST

THE PROFESSIONAL FARMER

» Peter, 55 – Agricultural contractor

“During the season, my machines run day and night. Xenon Bright light is a must.”

SAFETY AND COMFORT

BE SEEN

- » Full range of miniatures –
Safety for you and others.

MINIATURES

WHICH BULB IS THE RIGHT ONE FOR YOU?

Farmers have differing requirements for their vehicles, and therefore also for the light. HELLA has found a customer-oriented solution with its simplified bulb product range. No matter whether customers practice agriculture as a hobby, or their job has them in the field at any time of the day or night: HELLA bulbs meet all these requirements.

» "Safety, reliability, durability, at a fair price that's what I'm looking for."

STANDARD

Available in
H1, H4, H7, H11 and
also H15, H18, H19, ...
HELLA has them all

AFFORDABLE SAFETY

- A popular classic – HELLA's halogen bulbs
- Perfect fit for our customers' safety needs
- Tested quality
- Ideal value-for-money

» Best reliable Xenon lights also for Trucks.

XENON & XENON WHITE LIGHT

Available in
D1S, D2S, D2R, D3S, D4S

SAFETY & COMFORT

- Brighter and wider light distribution*
- OE-tested quality
- More than twice the brightness*
- Homogeneous light distribution

» Full range of miniatures –
Safety for you and other drivers.

STANDARD

Available in
R5W, R10W, P21W,
PY21W, W5W, ...

BE SEEN

- Full coverage of all bulb types
- Specifically developed for extreme requirements
- Vibration resistant

* Compared to standard halogen bulbs (luminous flux)

LED RETROFIT

NOT ONLY STYLISH AND COOL ON THE OUTSIDE – MODERN LIGHT IN THE VEHICLE INTERIOR IN NO TIME AT ALL

A large proportion of vehicles already use LED lighting. Intelligent lighting systems with LEDs are opening up more and more new possibilities, and not only for headlamps and rear lamps. Vehicle interiors are also coming more and more into focus, because there is a wide variety of possible applications for giving interiors a stylish design with LED retrofit lamps from HELLA. But the light produced by the lamps is not only stylish and cool, it also illuminates the vehicle interior as if it were broad daylight.

The LED retrofit lamps are not only convincing because of the brightness they can achieve, but also because of their increased energy efficiency and lifetime*.

Upgrading to LED technology is extremely easy thanks to the "plug-and-play" principle. Different light colours are available: between 4,000 K and 6,000 K.

Conventional light source

SPARE KITS

ALWAYS READY

Vehicle lamps always fail when you need them the most, while driving at night in bad weathers when all stores are closed. To get you covered, HELLA offers different assortment boxes.

Visibility is critical to safety. HELLA's assortment boxes include not only common headlamps, but also signal, indicator and marking lamps, plus the right selection of fuses.

  24 V			V	
24 V Spare kits	 	86J 002 525-941	1	24 V
	HEAVY DUTY	Box contains one set of H4 headlamps, two common signal lamps for each plus six fuses		
24 V Spare kits	 	86H 007 157-931	1	24 V
	HEAVY DUTY	Box contains one set of H7 headlamps, two common signal lamps for each plus six fuses		

		12 V			V
12 V Spare kits	 	86J 002 525-913	1	12 V	
	STANDARD	Box contains one H4 headlamp, common signal lamps plus three fuses			
12 V Spare kits	  	86H 007 157-901	1	12 V	
	STANDARD	Box contains one H7 headlamp, common signal lamps plus three fuses			
12 V Mini kits	 	86J 002 525-971	1	12 V	
	STANDARD	Box contains one H4 headlamp, common signal lamps plus three fuses			
12 V Mini kits	  	86H 007 157-941	1	12 V	
	STANDARD	Box contains one H7 headlamp, common signal lamps plus three fuses			

LIGHT EXPLAINED

THE HUMAN EYE

Discomfort Anxiety

We drive at night because we HAVE to. But are we properly equipped to do so?

No glare

Simulated glare

Light & Speed

Did you know? Speed leads to a reduction of the field of vision.

Field of vision: 100°

Field of vision: 75°

Field of vision: 45°

Field of vision: 30°

Light & Age

With age, the field of vision gets smaller.

16 years old

46 years old

76 years old

LIGHT IS

Light is:

- An electromagnetic radiation
- Travelling at 300,000 km/s
- Light is HEAT

Wavelengths

- Visible field is between 400 to 700 nanometers

White is

- A colour temperature as close as possible to the sunlight 4,800k
- HELLA White lamps have 4,200k

Colour

- CCT measures the Correlated Colour Temperature

Benefits

- Higher contrast of objects on the road
- Bluish-white light colour (HID effect)
- More brightness compared to standard lamps
- Stylish look

LIGHT EXPLAINED

MORE LIGHT MEANS

- More lumens where you need them on the road
- Extended range (Wider / longer)
- Beam pattern respecting the regulation: adequate forward and lateral illumination without blinding other drivers
- „More light“ comes at a cost however: a shorter lifetime

LONG LIFE IS

- Lifetime of bulbs cannot be defined in numbers of kilometers or years. It is rather defined as hours of operation.
- For bulbs, 2 measurements are used: B3 and Tc.
- B3 is the minimum number of hours to which 97 % of the lamps belong. After this time, the number of bulbs failing increases.
- TC indicates where 63 % percent of the lamps failed.
- On average, a standard H7 12 V lamp has a B3 of 300 h and Tc of 500 h according to the IEC requirements. Long life bulbs offer up to 3 times that value → Reduce the change intervals.

HALOGEN

- Simple light source – Tungsten filaments in a glass capsule filled with inert and halogen gas
- Great price-performance ratio
- Simple functionality → Manual levelling

XENON

- Better light output
- Gas discharge lamps produce light by passing electricity through ionized xenon gas at high pressure
- Automatic levelling + headlamp cleaning (> 2,000 lm)
- Costlier maintenance required

LED

- High light output vs. xenon / halogen
- Virtually maintenance free
- Automatic levelling + headlamp cleaning (> 2,000 lm)
- Highest degree of design freedom

LED "Retrofit" does not have ECE approval

- This means they cannot be used on public roads in any exterior application
- Use on public roads can lead to cancellation of driving licence and loss of insurance coverage. Various countries do not allow sale and use of these products

BUSINESS.

SIMPLIFIED.

OUR CUSTOMERS ARE AT THE HEART OF WHAT WE DO

In order to ensure that business runs smoothly, HELLA supports wholesalers as your daily business is already complicated enough. That's why we see it as our job to make this as simple as possible for you.

For the aftermarket, we offer outstanding availability of goods using sophisticated logistics and first-class data management as well as targeted sales support. This speeds up and simplifies the wholesale business – for greater efficiency.

We support workshops throughout the entire repair process. We search proactively for new solutions to help independent workshops successfully master the growing complexity of the different models so that customer cars can „hit the road“ that much faster. This is how we make your daily business run faster and make it more profitable.
