

THE NEW HELLA DYNARAY RANGE

# INTELLIGENT LIGHTING, EVOLVED.

Dynamic illumination for every road, every role, every condition.

## INNOVATION THROUGH DESIGN

The new **HELLA DynaRay Lightbar Series** redefines what modern auxiliary lighting can do.

Inspired by HELLA's DynaView and DynaBeam heritage, DynaRay introduces a completely new approach – combining **flexibility, performance, and control** in a sleek, contemporary form.

Every lightbar in the DynaRay range is built to adapt – to the road, terrain, and conditions ahead. Whether fitted to a highway vehicle, truck, off-roader, or working fleet, DynaRay delivers outstanding visibility, intelligent functions, and unmatched reliability.

Unique design with Slim Line and Double Row options

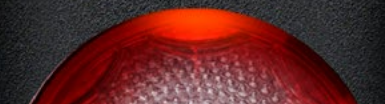

Versatile illumination for road, off-road, and utility use

Enhanced safety through adaptable lighting functions

Welcome and Goodbye light animation – refined illumination for every start and stop

12 synchronisable flash patterns – for custom visibility

### DUAL-COLOUR POSITION LIGHT

switch between white/amber or red/amber

### ENGINEERED FOR FLEXIBILITY

Unlike conventional lightbars with limited static functions, DynaRay offers true adaptability. Choose from single or double-row designs, each available in multiple lengths from 9.6" to 37.5", and with a range of selectable light modes.

Every DynaRay Lightbar is compatible with the HELLA Control Box system, allowing simple connection, synchronisation and function control – or full integration into custom wiring setups.

### HIGH BOOST MODE

unleashing maximum range for off-road conditions

Protect your lightbar in style – the exclusive DynaRay Design Cap is a translucent black cover designed to fit perfectly and enhance the look of your setup.

### HEATED LENS

automatic de-icing for reliable clarity in all weather

## PRODUCT FEATURES AT A GLANCE

Choose from single or double-row designs, each available in multiple lengths from 9.6" to 37.5", and with a range of selectable light modes including:
