## UNIVERSAL LIGHTING BY HELLA

Light is essential for both seeing and being seen. This is crucial for the heavy vehicle sector where professional drivers and vehicles travel long distances day and night. Rely on HELLA quality lighting for productivity while keeping vehicle operators and road users safe.

For over 120 years HELLA has been developing innovative lighting systems that provide optimal illumination, offering a higher level of driving comfort, increased productivity, reliability and safety.

With a comprehensive range of LED front, side and rear signal and marker lamps, driving lamps, work lamps and accessories HELLA products have been tried, tested and proven in the Australian and New Zealand road transport sector for over three decades.

HELLA products are manufactured using high quality, corrosion resistant materials that have been tested and proven to be ultra-durable in extreme environments and harsh conditions - that's why HELLA is the right partner for you.

In this brochure is a selection of universal lighting products designed for the heavy vehicle sector. For the complete product portfolio visit [hella.com.au](https://hella.com.au)

# HELLA New Zealand - Manufacturing products for Australia since 1973

With a reputation for innovation and an uncompromising approach to quality, HELLA New Zealand is regarded as a manufacturing centre of excellence within the global HELLA group.

Established in 1973, HELLA New Zealand began developing and manufacturing high quality, robust LED vehicle lighting products to meet the unique requirements and challenges of end users in Australia and New Zealand. A strong partnership soon formed between HELLA's Australian and New Zealand operations, and for almost 50 years many joint projects that began by creating new and innovative solutions to the challenges of their local markets have resulted in products that have gone on to achieve global success.

## Technology Leaders

HELLA New Zealand was one of the pioneers of LED lighting, with its research and development recognising the enormous advantages of LED technology for commercial vehicle, mining and marine lighting applications in the early 1990s. Over the last two decades, some of HELLA's most innovative LED lighting products have originated from HELLA New Zealand's design and manufacturing plant in Auckland and its electronics assembly plant in Waihi.

Today, HELLA New Zealand has world-class expertise in LED lighting technology. Its dedicated in-house electronic and optical design engineers develop innovative products with smart electronics that provide enhanced features, class-leading reliability and energy efficiency. High quality, corrosion resistant materials that stand the test of time are used for chassis, lenses and mounts to achieve high levels of impact resistance and durability, such as optical nylon, which is far stronger than conventional plastics.

The Auckland facilities cover some 7500m<sup>2</sup> and boast state of the art, highly automated manufacturing capabilities. The Waihi electronics plant, purpose built in 2007, boasts the latest automated, high precision assembly systems that place 70,000 LEDs onto circuit boards each day. Huge investment has been made in state of the art, computer-controlled moulding machines that enable extremely precise moulding tolerances to be achieved, down to as little as plus or minus .02mm.

In accordance with HELLA's commitment to environmental sustainability, the Auckland factory uses 100 per cent renewable energy and 95 per cent of waste material generated during the moulding process gets recycled into packing trays and glue tubes, and for purging machines between different types of plastics.

## Fit and Forget - by Design

HELLA New Zealand's fit and forget – by design philosophy reduces ownership costs for fleets with maintenance-free lighting solutions, such as the DuraLED® series of LED marker and signal lamps which provide maximum visibility and an unrivalled service life that's supported by an industry-leading lifetime warranty.

Originally conceived in 1996 and trialled for the very first time in 1998, DuraLED® marker and signal lamps revolutionised the market by eliminating vehicle downtime as a result of globe failures, dust or water ingress, or damage caused by debris and, in doing so, reducing costs for fleet operators.

Ongoing product upgrades, including design changes, the introduction of Grilamid® lenses for improved impact-resistance and the latest electronics, have enabled DuraLED® to remain at the forefront of the market.

## Quality Assured

Every product that leaves HELLA New Zealand's facilities is individually tested, and every order line is QA inspected. On-site testing facilities subject products to extremes of temperature, intense UV light, exposure to chemicals, and in humid and salt-laden conditions to ensure that they perform under stresses that greatly exceed those of most real-world situations.

## A Lifetime of Service

With over 25 years of strenuous testing, continuous improvement and proven reliability in use on the roads of Australia and New Zealand, HELLA Australia is proud to stand by the unique DuraLED® lifetime warranty\*, which warrants every DuraLED® product to last the economic life of the vehicle they were first installed on.

However, in the unlikely event that you should experience a confirmed warranty-related problem with DuraLED®, our commitment to your satisfaction ensures that HELLA will either repair or replace the product or refund the purchase price.

*\*This warranty does not cover claim/s as a result of normal wear and tear, any modifications, alterations, non-compliance of assembly, service and operating instructions and/or any unfit or improper use. Repair, replacement or refund is at HELLA's sole discretion.*

## DURALED® **BUILT TO LAST**

HELLA's growing range of DuraLED® lamps, incorporating the latest LED technology, have proven to be the superior economic and environmental choice for transport operators in Australia. DuraLED® has a track record to last the distance. The first DuraLED® lamps were supplied in 1998, some 20 years ago and are still in use today.

Fully sealed against dust and moisture to International Protection Standards IP 6K6/ IP 6K7, and compliant with current ADR (Australian Design Rules). As a result, these lamps are approved for use in Australia and New Zealand.

Once again following market demand, we now offer a range of selected models of DuraLED® lamps with moulded-in-Deutsch (DT) Connectors.

HELLA's innovative DuraLED® lamps are designed for use on trucks, buses, caravans, emergency vehicles and speciality applications.

**2VD 980 980-021** (2392R) Right Hand Side

# MODULAR LIGHT BAR

As well as emitting a powerful long-range amber flashing warning signal, HELLA Modular Light Bars offer a number of useful additional functions, depending to the variant chosen, which are discreetly integrated in to their modern design.

The technical base of the roof bar incorporates an amber warning light in to the side panels and additional Alley lights can also be integrated upon request. The middle section can comprise of various individual modules that provide a range of functions, such as a work light, or stop, tail or direction indicator lights. The individual modules are available as spare parts and can be easily replaced if damaged.

At just 52mm high, they can either be screwed directly onto the vehicle roof or mounted using the included bracket. The standard base of the Modular Light Bar is controlled with a simple ON/OFF switch, however a wired operating unit and Bluetooth-compatible base for wireless operation can also be available.

The product is available in a range of different sizes with a centre section preconfigured for a variety of applications.

Spare parts are available on request.

<b>2RL 014 567-071</b>	<b>609 MM (24")</b>
<b>2RL 014 567-081</b>	<b>1219 MM (48")</b>

<b>2RL 014 567-101</b>	<b>1524 MM (60")</b>
<b>2RL 014 567-111</b>	<b>1828 MM (72")</b>
<b>2RL 014 567-121</b>	<b>1828 MM (72")</b>
Mounting	Screwed to bodywork or using included mounting bracket
Voltage	Multivolt™ 10-30 V DC
Power Consumption	Depends on selected product equipment
Temperature Range	- 40 °C to + 65 °C
Protection Class	IP 6K4K, IP X9K
Type Approval	ECE-R65, ECE-R148
EMC Interference Immunity	ECE-R10, CISPR25 Class 3, RCM 
Connection	4,000 mm cable with open cable end

## Amber warning light

This centre module generates a long-range, amber warning signal and, as a supplement to the side panels, enhances the warning effect.

## "Take down" work light

The "Take down" work light module provides greater illumination in front of or behind the vehicle.

## Tail-stop-direction indicator module

The Modular Light bar can be connected to the vehicle functions and then also generates a tail, brake or direction indicator signal (repeater) like the vehicle's lamps.

## Black cover

This module is plain black and blends in perfectly alongside other centre modules when no lighting function is required in an area.

## On/off switch

Light Bar is included with a toggle switch. This is suitable for toggling a single light function (amber warning light). One of the toggle switches is used to turn the light function on and off, the other changes the flashing pattern.

**8KA 227 440-051** - 12V - 4.5m Length

7 Pin SAE J560 to AS2513 Adaptor Suzi Coil  
**8KA 227 440-141** - 4.6m Length (Pictured)  
**8KA 227 440-151** - 5.6m Length, Long Tail

7 Pin ABS/EBS ISO7638 Sockets, Screw Terminals  
**8JB 227 440-011** - ISO7638-2 12V Socket  
**8JB 227 440-021** - ISO 7638-1 24V Socket  
**8JA 227 440-031** - ISO7638-2 12V Plug  
**8JA 227 440-041** - ISO7638-1 24V Plug  
**8HG 227 440-001** - Blank Park Socket

Plug and Socket Testers  
**8PD 004 508-031** - 7 Pin Socket Tester EBS 24V (Pictured Left)  
**8PD 004 508-011** - 7 Pin Socket Tester, ISO 1185 / SAE J560 (Pictured Right)  
**8PD 004 508-021** - 7 Pin Plug Tester, ISO 1185 / SAE J560

7 Pin SAE J560 Suzi Coil,  
 Overmoulded waterproof plugs  
**8KA 905 392-041** - 4.5m Length

7 Pin Waterproof Sockets, Crimp Terminals  
**8JB 905 392-051** - SAE J560 Socket (Pictured Left)  
**8JB 910 032-041** - ISO 1724 Socket (Pictured Right)

LED Lamp Distribution Box  
**8JE 233 496-001**  
**8JE 233 496-011**

# BM-SERIES REVERSE ALARMS

## BM10

**3SL 910 035-001 (6015)** 97DB(A) Tonal

**3SL 009 148-011 (6009)** 97DB(A) Tonal

**3SL 009 148-021 (6010)** 107DB(A) Tonal

## BM20

**3SL 996 139-501 (6051)** 92DB(A) White Noise

**3SL 996 139-511 (6052)** 97DB(A) White Noise

**3SL 996 139-521** 102DB(A) White Noise

**3SL 996 139-531** 92-102DB(A), Self Adjusting, White Noise

## BM30

**3SL 996 139-102 (6016)** 107DB(A) Tonal

**3SL 996 139-112 (6017)** 112DB(A) Tonal

**3SL 996 139-002 (6018)** 87-112DB(A), Self Adjusting, Tonal

## BM40

**3SL 996 139-551 (6049)** 97, 102 OR 112DB(A), Switchable, Tonal

**3SL 996 139-561** 97, 102 OR 112DB(A), Switchable, White Noise

**3SL 996 139-571 (6048)** 97-112DB(A), Self Adjusting Tonal

**3SL 996 139-581** 92-107DB(A), Self Adjusting White Noise
