HELLA ACADEMY ##HMEATMAC-1

Thermal Management: Air Condition - Advanced

Thermal Management: Air Condition

Conducted by: **Aydin Almassian**

Practical information:

Duration: **2 days**

Off-site: **Showroom No. S3B2SR04**

1490 AED

Maximum **10 participants**

Please contact your wholesaler for current dates for our training courses.

Course description

A/C management , deeper components description (sensors , actuators) and diagnostic method!

Target group

Automotive mechanic, automotive electrician, automotive mechatronics technician, automotive master mechanic

Learning goals

- Understand thermal management & A/C system fundamentals- Identify key A/C components and their functions- Interpret cooling cycle and system performance- Diagnose common A/C faults- Apply a structured diagnostic approach

Course content

- Thermal management basics- A/C system components- Refrigeration cycle- Compressors, condensers & evaporators- Sensors & control systems- A/C diagnostics & servicing- Fault detection & troubleshooting- Practical workshop exercises

What's included

1490 AED plus VAT, includes:lunch, participant documents,coffee, certificate

Your trainer

Aydin Almassian

Aydin Almassian has over 20 years of experience in the automotive industry, with a specialization in the aftermarket and diagnostics. Since 2019, he has played a key role in the development and expansion of Hella’s Electric/Electronic products. Currently, as Product specialist and Technical Manager at Hella Middle East FZE, Aydin Almassian oversees these products while continuously driving innovation and technical excellence in the region.In addition, Aydin Almassian played a pivotal role in the launch, development, and ongoing management of the Hella Gutmann Academy at Hella Middle East. Under his direction, the academy provides specialized training in diagnostics, ADAS (Advanced Driver Assistance Systems) and calibration, helping to advance the skills and knowledge of automotive professionals.Within 5 years at Hella Middle East, Aydin Almassian remains committed to strengthening the company’s leadership in both product development and technical expertise, ensuring that Hella continues to be a key player in the evolving automotive industry.
