mega macs 42 SE

THE NEW HANDHELD TESTER
FOR SMALL AND MEDIUM-SIZED WORKSHOPS

WHEN ONLY THE BEST IS GOOD ENOUGH

Those who want to earn plenty of money in their workshops, will need everything of high quality: fast vehicle identification, reliable vehicle diagnostics, comprehensive supply of data and components as well as professional support on repair, if there are tricky problems. The diagnostic and emission analyser assortment of Hella Gutmann Solutions is perfectly aligned to the needs of modern car workshops.

With many years of experience and practical support, first-class diagnostic technology and fair pricing models, the range of Hella Gutmann Solution products are the preferred all-inclusive package of many workshops worldwide.

Small but Tough - The New mega macs 42 SE

Fast reception and evaluation of vehicles in the car dealership, reliable diagnoses and assistance in repair work – mega macs 42 SE is the flexible "allrounder" for workshops. With the mega macs 42 SE you will perform service work in no time at all and you will adapt even complex vehicle systems in just a few steps. This tool will therefore make your work more profitable.

The Real Deal for the Workshop

Throughout the further development of the successful mega macs 42 we have been adding some extras making your work faster and more flexible. We hereby have excluded all things that make work needlessly complicated. The new mega macs 42 SE therefore weighs just 480 g including the quick release battery but nevertheless contains more than 40 makes and more than 35,000 models. At the same time it offers the maximum scope of inspection.

With the mega macs 42 SE you can read out every ECU and system in the vehicle. The software helps you localise the causes of troubles and indicates connections and components. Specialised service workshops and those servicing numerous brands have a practicable tool with mega macs 42 SE.

Fit for the Future

The tester helps you perform service work on vehicles by supplying you with the necessary data, resetting the service intervals and coding the ECUs and systems in no time. Thanks to the modern PassThru technology you will be able to install manufacturer data on every released vehicle ECU. The new mega macs 42 SE is an allround tool easy to operate and that realises fast works on all relevant makes and models.

Regular updates ensure that the diagnostics tool is always up-to-date. These updates are already included in all our licence models – of course without any extra charges.

Utmost Independence

Thanks to its compact dimensions the mega macs 42 SE is a real handheld tester offering some practical features that will significantly facilitate your work. The perfect entry model or mobile tool comes with an unbeatable price/performance ratio enabling wireless communication to the vehicle. In the future you will thus be able to work at a larger operating radius. The quick release battery enables a continuous workflow without compulsory breaks due to charging times and correct vehicle identification through VIN is no longer a problem.

Technical Data

GENERAL DATA

Supply voltage	12 – 18 V
Battery charging voltage	8.4 V
Current consumption	max. 1 A
Power supply	1 Li-Polymer battery, 1000 mAh, mains supply
Display	Type: LCD-TFT, colour display, Resolution: ¼ VGA Size: 3.5"
Storage medium	Flash
Input	Membrane keypad
Working range	0 – 45 °C
Weight	480 g including battery
Dimensions	47 x 110 x 202 mm (H x W x D)
Type of protection	IP20
Interfaces	USB host, USB device, Bluetooth®

SCOPE OF DELIVERY

mega macs 42 SE
DT VCI (for wireless communication to the vehicle)
Bluetooth® adapter
USB cable 1.8 m micro
USB interface cable macs 42
Quick-start guide
Mains supply and country-specific mains lead
User manual on CD
Shipping carton

OPTIONAL ACCESSORIES

Docking station
Quick release battery pack
Vehicle charging cable
Vehicle adapter
Equipment case

At a Glance

The new mega macs 42 SE is a mobile, high-performance diagnostic tool, which can be easily operated by any mechanic without complex training. Wireless communication, clear vehicle identification through VIN code and continuous workflow thanks to the quick release battery pack makes working even faster and repair work highly efficient. With the mega macs 42 SE you are able to control all important diagnostic functions with just a few keys – without any compromises.

Survey of Applications

- ✓ Wireless connection to the vehicle
- ✓ Reading and deleting fault codes of all ECUs
- ✓ Clear vehicle identification through VIN
- ✓ Fault code explanation with detailed information
- ✓ Parameter depiction using graphics and explanations
- ✓ Indication of the diagnostic connection and adapter designation
- ✓ Actuator tests
- ✓ Codings
- ✓ Basic settings
- ✓ Service resets
- ✓ Print function for all measurement results
- ✓ Docking station
- ✓ Quick release battery pack
- ✓ PassThru technology
- ✓ etc.
