

Peugeot 206 - Allumage du voyant moteur | HELLA

Peugeot

206 1,6 HDI

Année modèle de 2005 à 2007

Code moteur DV6TED4 (9HZ)

Allumage du voyant moteur

Le faisceau de câbles du kit de réparation possède d'autres couleurs de câble que le kit fournit au départ usine. Au montage, veiller à ce que le raccordement soit fait correctement.

Important safety note

The following technical information and tips for practical use have been set up by HELLA in order to offer professional support to automotive workshops in their daily work. The information available here on this website is only to be used by appropriately trained specialist staff.
