HELLA ACADEMY #HGS230

IMI ADAS AOM 230

Diagnostic Services Diagnostic Devices ADAS

Conducted by: **Steve Fox - CAA CAT AAE MIMI**

Practical information:

Duration: **2 days (09:00 - 17:00)**

Off-site: **Hella UK, Appletree Industrial Estate, Chipping Warden, Banbury, Oxfordshire**

550 £

Maximum **6 participants**

For this course there are **3 dates available**

Course description

Upon completing of this course the candidate will gain an ADAS Accreditation. This two-day training covers ADAS technologies, legislation, calibration requirements, vehicle alignment principles, and diagnostic procedures. Through practical exercises and a final assessment, participants gain the skills required to perform professional static ADAS calibrations in the workshop. This course enables technicians to work towards insurance industry requirments (IIR) for the safe repair of ADAS equiped vehicles.

Learning goals

- Participants will learn how to navigate the new user interface of the Smart Diagnostic Interface software..
- Participants will be able to perform basic diagnostic functions using the new user interface.
- Participants will gain confidence conducting ADAS calibrations in a workshop environment.

Course content

Day 1 consists of theory wrapped around ADAS. Some examples include: SAE Levels of Auntonomy, European commision, ADAS identifcation, legislation, code of practice, lighting, environment, space, types of calibrations, Vehicle alignment & Geometry, the present & future, and the online IMI Assessment.

Day 2 consists of the candidate completing a practical assessment, carrying out two individual static calibrations in the Hella Academy.

What's included

Includes: training, participant documents, lunch, and IMI accreditation

Further information

The training includes many practical exercises on our training vehicles. Please wear appropriate workshop clothing and safety shoes.

Cancellation policy

Participants may cancel their registration up to one month before the training date without penalty; cancellations after this period or no-shows will incur the full training fee. In case of organiser cancellation due to low enrollment, a full refund will be issued.
