Product information brake shoe set | HELLA

8DB 355 005-111 / R1301

8DB 355 002-751 / H9670

8DB 355 004-921 / R1230

8DB 355 004-911 / R1225

Different types

The design of the handbrake lever on the brake shoe is different in comparison with the first version, or rather the attachment element for the handbrake cable is configured differently as can be seen in the pictures. This amended installation situation has no effect on the installation and function of the handbrake cable. Both articles can be used within the framework of repair activities.
