

BMW Mini (R50)

Bulb replacement / rear lamps

In order to replace the bulbs in the rear lamps of the above-mentioned vehicles, proceed as follows:

- Remove the luggage compartment cover
- Remove the side trim panel (Fig. 1, Item A)
- Remove the first-aid box (left-hand side only)
- Pull the connector off the bulb carrier
- Remove the attachment nut (Fig. 2)
- Press the clips (Fig. 3), remove the rear lamp

Installation takes place in reverse order.

If water has penetrated the lamp housing (Fig. 4), the rear lamp should be replaced.
